KILLED BY DRUNKEN MAN.

While Sitting on City Hall Steps Man is Shot to Death.

Anniston, Ala., Oct. 18.—J. W. Trigg, one of the most prominent citizens of Anniston, is dead, and Chief of Police Dill badly, but not dangerously wounded as a result of an unusual shooting affray here.

L. E. Pippin, overseer of the city streets, did the shooting All three of the principals were good friends.

Pippin had been drinking heavily during the late afternoon, and about 9 o'clock passed down the street in front of the city hall, on the steps of which Mr. Trigg and Chief Dill were sitting talking. Pippin, after speaking pleasantly to both gentlemen, suddenly whipped out two pistols and opened fire in the direction of the city hall steps. Mr. Trigg fell mortally wounded in the right breast, and Chief Dill received two painful flesh wounds, after which he overpowered Pippin and ordered him locked up.

The shooting was entirely without provocation, acording to eye-witnesses. Pippin's friends say he did not know what he was doing, as his relations with both Mr. Trigg and Chief Dill have always been most cordial.

Mr. Trigg was a prominent furniture dealer, and was formerly a resident of Atlanta.

RAWLINGS MAKES CONFESSION.

Tells that His Sons Were Not Implicated in Murder.

Valdosta, Ga., Oct. 18.—A considerable sensation was created here by the confession of J. G. Rawlings, in which he acknowledged that he hirde the condemned accomplice, Alf Moore, to kill Carter.

Rawlings attempts to clear his sons of complicity in the assassination of the Carter children last June, and while he admits hiring Alf Moore to "put old man Carter out of the way," he still contends that neither one of his sons was present or had anything to to with the tragedy.

It has been rumored for several days that the elder Rawlings contemplated confessing his part in the crime, and once or twice in conversation with visitors to the jail he was trapped into alleged incriminating admissions. His action today, however, was entirely voluntary, unless it be that he was persuaded to the course by his wife, who, it has been freely stated, recently came to see him for the purpose of trying to get him to shoulder the responsibility for the assassinations and try to save his sons from the gallows.

FARMERS WILL BUY COTTON.

Georgia Planters Will Purchase Staple Below 11 Cents a Pound.

Sparta Ga., Oct. 18.—The following resolutions were adopted at the meeting of the Hancock County Cotton assocaition, the object being to form an organization to enter the market for the purchase of all cotton offered for sale below 11 cents:

"Resolved, That we form a local association for the purchase of all cotton forced to or offered for sale below 11 cents, the minimum price fixed by the association as the mraket price for middling grade.

"The chairman to appoint a committee of four, beside himself, to arrange ways and means.

"We commend such a course to each county association in the cotton belt as being the only practical way to form a cotton holding company, from which the producers themselves will reap the benefit."

Large Cargo of Whalebone.

New York, Oct. 18.—A special to the Tribune from New Bedford, Mass., says that the whaling schooner Eric arrived in port Monday from Hudson Bay, after a severe voyage carrying 5,000 pounds of whalebone. She reports that the Norwegian Arctic exploring expedition was successful in making the northwest passage, Captain Comer basing his statements on a letter he had from Commander Amundson, of the sloop Gjoa, who was at the time, April 22, in King Wilhelms Land. The natives reported that the Norwegians have made the passage and the commander himself later sent word that the Gjoa would work her way out to Behring straight during the summer.

MISS ROOSEVELT TO PAY CUSTOMS DUTY

President's Daughter Will Not Be Exempt From Tax.

RETURNS WITH LOADS OF GIFTS

While Visiting the Different Far Eastern Nations, Miss Roosevelt Has Been Recipient of Many Presents in Value to the Amount of $100,000.

Chicago, Oct. 18.—A dispatch to the Record-Herald from Washington, says:

Secretry Shaw and Collector of the Port of San Francisco have had a load of trouble for several weeks about which the public has known nothing, and it was lifted yesterday when the secretary was told by President Roosevent to collect the legal duty on all dutiable articles brought back to this country by Miss Alice Roosevelt. The total of the duty is expected to be nearly $60,000.

The daughter of the president has received during her trip to the Philippines, China, Japan and Korea many pretty and some quite valuable souvenirs.

Some one suggested that Miss Roosevelt be allowed to bring the articles duty free as she was treated with all the honors of a princess and did much to cement the friendship between the United States and foreign countries. The belongings of the crowned heads, of royalty and of diplomats are thus admitted duty free into the United States. Secretary Shaw received suggestions until he was almost sick. All that stood out before his official gaze was that the presents had been reported as worth probably $100,000, and if the usual rate of duty was imposed it would cost Miss Roosevelt or her father upward of 60 per cent or $60,000.

Neither Miss Roosevelt nor her father is rich, although the young woman is understood to have a modest fortune in her own right. Finally Secretary Shaw took his burden to the president and told him all about it.

"There is but one thing to do," said the president. "That is to treat my daughter's baggage as you would the baggage of any other private person. She will pay duty on everything that is dutiable."

Disturbances at St. Petersburg.

St. Petersburg, Oct. 17.—6:20 p. m.—In an encounter between the police and the striking printers at the government bureau of printing and engraving, this afternoon fouy persons were injured but one seriously. The printers attempted to hold a meeting against the command of the minister of finance, Kokovskoff, who requisitioned the police and the strikers were driven from the building. Shooting has just been reported from the Pohl cotton mill in the eastern suburb of this city. The strike broke out this morning. A telephone message says the disturbance is not serious.

Warships Go to Venezuela.

Paris, Oct. 18.—The departure of the armored cruiser Desaix from Cherbourg yesterday for the island of Martinique, French West Indies, inaugurates the preparations for dealing with the Venezuelan question with a strong hand, if President Castro persists in his present course. The Desaix will stop at Brest, where she will be joined by the cruisers LaVerdier and Chasseloup-Laubat. The three warships will then proceed together to the French West Indies, joining the cruisers Jurien de LaGraviere and Troude, now at Martinique.

Preparing to Receive Bryan.

Manila, Oct. 18.—Preparations are being made here for an elaborate reception and banquet to be tendered to William Jennings Bryan on his arrival in Manila by native Filipinos, principal among whom are the former insurgents Gomez and Lachana, and the famous Lopez family. The American admirers of Mr. Bryan are holding aloof from the Filipinos and will give him a separate banquet. The latter will also give a banquet in Mr. Bryan's honor.

"BLACK HAND "SOCIETY AGAIN.

This Time They Dynamite a Grocery Store of New York Italian.

New York, Oct. 18.—A charge of dynamite exploded in the doorway of the grocery store of Antonio Garbatvo, 13 Stanton street, on the East Side, a few minutes after 3 o'clock this morning, wrecked the lower half of the front of the buliding, shattered the windows in the tenements above and threw into a panic hundreds of tenants in the immediate neighborhood.

Windows in the tenement building at 10 Stanton street, opposite, were also broken. No one was dangerously injured, although many bruises and cut were received in the hurry of the befrightened tenements to escape from their houses following their sudden awakening.

The outrage is believed by the police to have been directed against Garbatvo, who has two sisters occupying living rooms in the building.

Garbatvo a week ago received a "black hand" letter demanding $1,000. He turned the letter over to the peace officers and since they have been trying to identfy the author.

FEARFUL STORY OF SHIPWRECK.

Only Two of Crew Escape—Six Are Drowned or Suicided.

Boston, Oct. 18.—A story of a north Atlantic shipwreck, in which eight seamen suffered so fearfully from exposure, hunger and thirst, that six of them either died outright, were washed away or crazed by their fearful experience, threw themselves into the sea, was told by the two survivors of the coasting schooner, Vanname and King, of New Haven, which was beaten to pieces by a gale off the South Carolina coast on Oct. 6.

The two men who lived through the five days were rescued by the schooner Stillman F. Kelly, which arrived here late today, are William Thomas and William G. Warner, both 29 years old, and hail from Antigua, British West Indies. The six who, one by one, succumbed, were:

Captain William A. Maxwell, of New Jersey; Mate A Chase, home unknown; engineer, a German, name unknown; negro steward, name unknown; William Grizell and Fred Arthur, negro seamen, both from Jamaica.

WOMAN FOUND UNCONSCIOUS.

Police Do Not Know Whether It Is a Case of Murder or Suicide.

New York, Oct. 18.—A woman apparently but 25 or 30 years of age, was found in the wagon shed of a brewing company in the rear of the Fulton avenue, the Bronx, last night.

She was alive but unconscious. There were three bullet holes in her neck.

At the hospital it was said that there was no chance of her recovery In a pocketbook were $5.15, a trunk key, a pair of silk gloves and this note in German, addressed to a man:

"I hope you may get your deserts. I always was a decent girl. I pray God will forgive me and punish you. Please bury me in the poor cemetery. Make no attempt to find my relatives. (Signed) V. Anna Lacoge."

The police are at a loss to know how the wounds could be self-inflicted, if, as the note indicates, the case was suicide.

Wild Elks Are Captured.

Bakersfield, Cal., Oct. 18—As a result of the second day's drive of the herd of wild elk which for years past have made their feeding grounds at the Miller and Lux ranch, at Button Willow, 30 miles south of this city, 23 perfect specimens were captured w the lariat yesterday and of these 20 lived to be transferred to the government reserve Sequoia park. At least 175 are still at large. The task of transferring the herd is to be abandoned for the present.

Kind of Statehood Wanted.

Tucson, Ariz., Oct. 18.—A Star special from Prescott, says that the Arizona delegates have adopted a resolution urging congress to incorporate in the Arizona statehood bil a prohibition against the licensing of gambling, lotteries and the sale of intoxicating liquors in the state of Arizona, excluding the protection of Arizona Indians and the university of the state, as provided in the Ferguson bill.

NEGRO IS LYNCHED BY KENTUCKY MOB

He Shot and Killed Prominent Farmer in that State.

MOB WAS MASKED AND ARMED

The Negro Had Been Found Guilty by Two Different Juries and Had Been Sentenced to Life Imprisonment—No Clew to the Lynchers.

London, Ky., Oct. 18.—Virgil Bowers, a negro, was taken from the county jail here last night at 11:30 o'clock and hanged to an apple tree in a road leading to Barbourville.

The negro shot and killed George Faris, a prominent and wealthy Knox county lumber dealer, on the night of Aug. 26.

The negro was tried by the Laurel county jury early last week. The jury disagreed, being 10 for the death penalty and 2 for a life imprisonment sentence.

A second trial by a jury brought from Rock Castle county, rendered a verdict for life imprisonment after ten jurors had voted for hanging.

The mob is thought to have come from Knox county. All were masked and were armed with guns, pistols, sledges, picks, axes an dynamite.

The mob forced the jailer to deliver up the prisoner.

Cowhided While in Court.

St. Augustine, Fla., Oct. 18.—The preliminary trials of the four Osteen brothers, accused of the murder of Geo. and Edward Carter, was held Monday. Judge Mackay decided to hold all the defendants under $1,000 bond each to answer such indictments as may be found at the November term of the circuit court. The fifth brother, James Osteen, has not yet been captured. A sensational affair grew out of the trial shortly after the court adjourned at noon. Louis Mickler, of Diego, attacked and severely cowhided Perry Greene, of Moultrie, before the affair was stopped by the outsiders. It was said that Mickled had been bitter against Green for years on acount of an insulting letter Green is alleged to have written to his wife. The two attended the trial and the cowhiding followed. After the affair the two men went in opposite directions.

Dixon's Play Was Hissed.

Columbia, S. C., Oct. 18.—The appearance in this city of the "Clansman," Thomas Dixon's new play, which deals with the reconstruction period, under negro rule in South Carolina, was the most largely attended of any play that has been presented here in recent years That the large attendance was not due to approval of the drama was manifest by the hissing of the audience throughout the performance. This, however, was more especially emphasized when at the end of the first scene in the third act.

Scottish Rite Masons in Session.

Washington, Oct. 18.—The supreme council for the southern jurisdiction of the United States, Ancient and Accepted Scottish Rite, began the second day's session of that body this morning by receiving their report of the committee on jurisprudence and legislation through its chairman, George Moore, of Alabama. The report seeks to make more explicit the constitution and status of the supreme council and is most exhaustive in character, the committee having devoted two years' of study to bring about harmony in the laws and decisions.

Canal Commission Returns.

New York, Oct. 18—Members of the Isthmian canal commission and the board of consulting engineers returned had made a careful inspection of the Panama canal, arrived here today on the steamer Havana, from Colon. Gen. W. Davis, chairman of the consulting engineers, said that although the party had made a careful inspectio not the proposed route for the canal no decision has been reached as to the sea level plan. He said that the board might reserve its opinion on the best kind of canal in lieu of those under

A CAR BURNED AND ENGINE DAMAGED

On the Seaboard Air Line Railway at Cedar Key.

FIRE CAUSED BY A SPARK

Old Freight Car Had Taken Wood to the Key—Engine Had All Its Wood work Destroyed—Another Engine Sent to Haul Passenger Train.

Quite a fire occurred on the Seaboard Air Line Railway at Cedar Key Tuesday night. A carload of wood had been sent to that station for the use of the agent, and switched on the siding by the engine that draws train No 55 and after the wood had been unloaded the engine was run along side the car and left.

Later in the evening the old box car caught fire and was totally destroyed, and all the woodwork of the engine cab burned off.

As the old car was only used for hauling wood and such other work, it was not of much account. The news was reported to Waldo and another engine was sent to Cedar Key to haul the passenger train that passes through this city for Jacksonville at 7:45 in the morning.

The disabled engine passed through Gainesville to Waldo on her own steam yesterday afternoon, the engineer and fireman sitting up on the wreck enjoying the sun's rays

BRITISH MARINES CAPTURED.

Anjera Tribe Carries Off Two of King Edward's Subjects.

Tangier, Morocco, Oct. 18.—Two British marine officers have been captured and carried off by the Anjera tribe, while returning to Ceuta from the British repair ship Assistance recently wrecked in Tetuan bay.

An Associated Press dispatch from Gibraltar dater Oct. 18 reported the Assistance ashore in Tetuan bay, Morocco, and that warship, steamer and lighters had gone to the aid of the vessel which, owing to a heavy gale, was in danger of going to pieces The scene of the wreck is about 50 miles south of Gibraltar.

Ceuta, to which place the British officers were returning when captured, is a seaport on a small peninsula in the north of Morocco, jutting east into the Mediterranean sea at the entrance to the strait of Gibraltar. The Anjera, an Arab tribe, inhabit the extreme northern portion of Morocco.

Southern Railways Join Hands.

Knoxville, Tenn., Oct. 18.—A special to the Sentinel from Johnson City, Tenn., says that it is stated upon reliable authority that the Southern railway has extended the Olive Branch and proposes to join hands with Geo. L. Carter, and the latter is to permit the Southern to use his south and west railroads' tracking from Johnson City to Marion, N. C. The Southern in return is to extend the south and western trackage privileges over the Southern's rails from Marion to Rutherford, N. C. If Mr. Carter does combine with the Southern, it is said there will be no further fight over the right of way up Guests river to the Wise county, Virginia, coal fields.

Officers Agree to Leave State.

Savannah, Ga., Oct. 18.—Thomas J. Farrell, formerly a constable for one of the Savannah magistrates, was sentenced by Judge Cann, in the superior court, today to pay a fine of $250 or serve six months in jail on a chage of extortion. He paid the fine. Another charge of the theft of $100 was dismissed, Farrell taking oath to leave the county and never return.

Bridegroom of a Few Hours Dies.

Moultrie, Ga., Oct. 18.—James P. String, holding a position of importance with the Moultrie cotoin mills, died Monday morning. Strong was a bridegroom of about 15 hours, having married Miss Fannie Ferrel, the ceremony being performed while he was on his bed. He was not thought to be seriously ill.

Paris Councilmen Visit London.

London, Oct. 18.—Some sixty members of the Paris municipal council who are now guests of the London municipal councillors, were received in audience by King Edward in the throne room, Buckingham palace, today. The king shook hands with each visitor and exchanged a few words of greeting.

The inventor of the famous "TERRELL SCRAPE," a man known wherever plows are sold and used, says:

"I have used MOZLEY'S LEMON ELIXIR for 10 or 15 years in my family for the stomach, liver and kidneys, and find it is the best medicine I have ever used. It is also a sure specific for pain in the back or under the shoulders. I have recommended it in numerous cases to my workmen, when sick and unable to work, and it has always given perfect satisfaction. H. D. TERRELL, President Atlanta Flow Co., Atlanta."

MOZLEY'S LEMON ELIXIR.

NEWS TERSELY TOLD.

Ex-Congressman Jerry Simpson, of Kansas, who is ill at a Wichita hospital, is at death's door, according to a statement issued early today by his physicians.

The re-organization bill, now before the Philippine committee, providing for reducing the departments of the government, will save $1,250,000 (gold) annually.

It is estimated that the profits on the tobacco monopoly of Japan this year will be $16,000,000, but it is expected they will be $500,000 more than the actual calculations.

The state troops have been ordered from Tracy City, Tenn., where they have been on guard since the mining trouble there, about two months ago. Deputy United States marshals will be placed in charge of the situation.

George W. Perkins, of New York, and J. Pierpont Morgan, Jr., leave London tomorrow for St. Petersburg. They say they are unable at present to discuss the financial projects in connection with which they are visiting Russia.

Mr. and Mrs. Marshal Field, of Chicago, who were recently married in London, and Dr. Leo E. Vogel, Swiss minister to Washington, were passengers on the steamer Kron Printz Wilhelm, which arrived at New York today from Bremen.

The trial of John W. Hill, formerly chief of the Filtration Bureau, of Philadelphia, who is charged with forgery and falsifying the records of his bureau, which was to have begun today, has been postponed until after the November election. No date was set.

One week has elapsed since the discovery of the $101,000 Adams Express company robbery, and the disappearance of Edward G Cunliffe, of Pittsburg, the money clerk, charged with the theft, but not a tangible clew has been brought to light concerning his whereabouts.

The North German Steamship company, it is said, is contemplating abandoning Southampton as an outward port of call, calling at Dover instead. If the plan is carried out, it probably will go into effect in January Plymouth, England, will remain a homeward port of call.

Measures.

A gallon is exactly ten pounds of distilled water, so when housewives say "a pint's a pound the world around" they are mistaken.

The imperial standard yard, which is the same as our own, is the distance between two fine lines on a bar of bronze, measured at 62 degrees F. The bar is kept mounted on eight rollers in a special steel safe in London.

The standard pound is kept in a silver gilt box contained in a bronze box, the top of which is securely screwed down and the whole placed in a special compartment of the same safe.

The German metric system took the place of more than twenty local measures. The Hesse-Darmstadt foot was less than ten inches, the Schwarzburg-Rudolstadt foot more than fifteen.

London Sunday Closing Riots.

London had its troubles with Sunday closing laws when in 1855 there were riots caused by Lord Robert Grosvenor's bill to put down Sunday trading. A crowd hostile to the measure went to Hyde park "to see how the aristocrats kept the Sabbath," as a newspaper of that time put it. Carriages taking the afternoon drive were greeted with yells of "Go to church!" and with hooting that scared many horses into running away. A week later the police prohibited a meeting that was announced, but tens of thousands of people appeared, and there were vigorous struggles with the police. On the third Sunday pure rowdyism supervened, footmen were assaulted, and windows were smashed wholesale through the aristocratic districts. Then the trouble died out, and so did the bill.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." The Great Mogul.

The greatest of the Mogul emperors of India was Akbar, born Oct. 14, 1542. He began to reign when he was but twelve years old and over three provinces only, but he extended his empire over nearly the whole of India. His wisdom and justice earned for him the title "Guardian of Mankind." His court at Agra was magnificent. Akbar's real name was Jelal-ed-Dean, but when he reached the height of his power he became known by the shorter name, which means very great or greatest, and in English he was called the great mogul. He is said to have kept 5,000 elephants, 12,000 choice horses and 1,000 hunting leopards. Akbar died in 1605, was buried in a magnificent mausoleum near Agra and was succeeded by his son.

Alcoholic Drink From Rice.

The alcoholic drink used in the province of Chekiang, in China, is made from fermented rice. Fermentation is induced by the addition of cakes made of wheat meal. An examination of these cakes shows that the particles of wheat are penetrated through and through by the mycelia of various fungi. Some seven or more different species were found. These fungi grow on the moistened rice, fermentation follows, and a yellow liquid with an agreeable odor is produced.

A Tenant For Life.

"Have you boarded long at this house?" inquired the new boarder of the sour, dejected man sitting next to him.

"About ten years."

"I don't see how you can stand it. Why haven't you left long ago?"

"No other place to go," said the other dismally. "The landlady's my wife."

CONTAGIOUS BLOOD POISON

KING OF ALL DISEASES

To Contagious Blood Poison rightfully belongs the name King of all Diseases. It is the most powerful of all human ailments—corrupting every part of the body and wrecking and ruining the lives of those unfortunate enough to contract it. When the first sign appears in the form of an insignificant sore or ulcer, few persons realize that the deadly virus has entered the blood; but so potent is the poison that one drop will vitiate and pollute the purest and healthiest blood, and in a short time the degrading and horrible symptoms begin to appear. The mouth and throat ulcerate, the glands in the neck and groins swell, the hair and eye-brows fall out, copper-colored spots appear on the body, and in the latter stages of the disease the poison even works down and destroys the bones. No other disease is so highly contagious, and many have contracted it and suffered its awful consequences through a friendly hand-shake, handling the clothing of one afflicted with it, or drinking from the same vessel. S. S. S., The King of Blood Purifiers, is the only cure for Contagious Blood Poison. It goes down into the circulation and forces out every particle of the virus. It is nature's antidote for this peculiar poison, and cures the disease in all its stages, and cures it permanently. S. S. S. does not hide or cover up any of the poison to break out in future years, but so completely eradicates it from the blood that no signs are ever seen again. S. S. S. is purely vegetable, we offer $1,000 for proof that it contains a particle of mineral of any kind. Book with instructions for home treatment and any medical advice you desire will be furnished by our physicians without charge.

A HUGO TREASURE.

Romance of the Famous Writer's Improvised Inkstand.

Many valuable relics that of late years have found their way into the houses of the wealthy and adorn the shop windows of the antique dealers are not only interesting from their rarity or association, but also in the manner in which they come into the hands of the dealer. The following story told by a dealer may illustrate this fact and tell how a priceless relic came near to being thrown away:

Some years ago, when staying in the little island of Guernsey, in the English channel, which for so many years was the residence of Victor Hugo during his exile from France, I was going through one of the old streets and strayed into a secondhand furniture store on the chance of finding something that might be interesting. Among several odd pieces I found the bottom of an old Chippendale dressing mirror, minus the mirror, the center of which had been hollowed out to form an inkstand.

The oddness of the piece attracted my attention and upon questioning the dealer he informed me that it was a part of a lot of rubbish that had been thrown out of Hauteville House, where Victor Hugo had lived and which is still preserved intact by his family just as he left it upon his return to France. This old house is full of costly antique treasures with which the author loved to surround himself, and the visitor on application to the caretaker is today shown over the place and sees the table and bed used by him in his old study at the top of the house in which he wrote so many of his works and watched the shores of his beloved country, from which he thought himself forever an exile.

This house and its treasures being so carefully guarded by the descendants of Victor Hugo, I wondered how a piece like the inkstand could have been thrown away and hesitated to believe that it really had come from where the dealer said it did, the price asked for it being but a few francs. I decided to think it over before purchasing, and in a few days called around again. Upon inquiring for the inkstand, the dealer said, with many apologies, that I was too late, and explained matters as best he could. During the summer months the Hugo family pay a visit to the island a few weeks, and prior to their arrival the house is thoroughly cleaned, etc. A new maid, seeing an old box, as she thought, threw it away with the rubbish, and it was sold by a junk man to the dealer. A few days after my visit to him M. Georges and Mlle. Jeanne Hugo, grandchildren of the author, strolled into the same store, and, looking around, espied the inkstand. They immediately inquired as to how it came into his possession, and after telling them the particulars they informed him that it was an improvised inkstand that Victor Hugo had used for many years.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

When It Grew Tiresome.

"I never thought," said the conceited lecturer, "that my voice would fill that hall."

"No," replied the candid man, "I thought at one time it would empty it."—Philadelphia Public Ledger.

Love and Friendship.

Love is the shadow of the morning, which decreases as the day advances. Friendship is the shadow of the evening, which strengthens with the setting sun of life.

Custom.

Be not so bigoted to any custom as to worship it at the expense of truth. All is custom that goes on in continuity. All customs are not alike beneficial to us.

Matrimonial Music.

Trix—Is his married life one grand, sweet song? Tom—No, it's a "plaintiff" melody just now. He's the defendant in divorce proceedings.—Puck.

Makes Homely Women Pretty.

No woman, no matter how regular her features may be, can be called pretty, if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears sallow blotched complexions by stimulating the liver and bowels. Orino Laxative Fruit Syrup does not nauseate or gripe, and is mild and pleasant to take. Remember the name Orino and refuse to accept any substitute. J. W. McCollum & Co.

Laughter and Health.

A physician in search of remedies for human ills finds that laughter stands very high in the list of prophylactics. The effect of mere cheerfulness as a health promoter is well known, but an occasional outburst of downright laughter is the heroic remedy. It is a matter of everyday experience, says the authority in question, that one feels the better for a good laugh, an explosion of laughter being in truth a "nerve storm, comparable in its effect to a thunderstorm in nature, doing good by dissipating those oppressive clouds of care which sometimes darken the mental horizon." This authority assures us that the memorable adage, "Laugh and grow fat," rests on a sound philosophical basis. Portly people are not given to laughter because they are fat. They are fat because they laugh.

Burglars and Chloroform.

Doctors agree that the public is wrong in the popular conception that burglars sometimes chloroform the inmates of a house before committing a robbery. The usual story is that the anaesthetic was squirted into the sleeping room through keyholes. A Kansas City surgeon who has had occasion to administer chloroform or ether 500 times says that chloroform administered in this manner would put a quietus on the burglar as well as the inmates of a home. Physicians have tried many times to administer chloroform to sleeping persons and have met with very poor results. The first effect of an anaesthetic is not to lull to insensibility, but to arouse all the mental and physical vigor of the person to whom it is given.—Kansas City Journal.

The only terrors a peacemaker has to endure are the poems that are sure to dog his steps after such an event. No wonder President Roosevelt desired a trip South. Poet Laureate Wilson of England will probably have his effusion in Washington on the President's return.

As a matter of fact a "cold" is not a cold, nor is it caused by cold. When the so-called cold begins to develop it is a fever in its incipient stage. Like consumption, it is a house disease. It can neither attack or exist unless there is a lack of fresh air in the lungs, and the skin is abnormal.

The fellows who want football toned down to a pleasant and easy game want to take all of the sport out of it. They are afraid some one will get hurt, yet it is a fact that the men who play football, and who refrain from cigarettes, beer, whiskey, etc., while in the game, seldom get hurt.

OWN YOUR HOME.

It is surprising the amount of rent a man will pay, if he stops long enough to figure it out. Many young men who marry and "settle down" and begin to pay rent, will be far better off in ten years if they begin purchasing property that year than if they continue to pay rent. Many of them do not stop long enough in their daily work to think of a possible rainy day and years of old age, but go on spending the fruit of their toil until the time comes when they have to step down and out to make room for the young men of the future. Then comes the old, old question, they are not prepared for an emergency of this kind, and they wish that they had bought when they were young and have a home of their own when the time of acquiring it is passed.

Ninety-nine times out of a hundred the property purchased increases in value. Why not figure this out to your own satisfaction, make up your mind and start at once to prepare a home? Where were you six, eight, ten, or fifteen years ago and what did you have? If you have paid rent all these years you have your rent receipts to show where your money has gone, but where is the home you might have owned if you had been paying your money towards a home of your own? What will you have then? Will it be a home of your own or a bundle of rent receipts? All real estate has a value, and if purchased at this value the buyer cannot possibly lose. Look around you, if you are an old resident of this city. You know about what certain pieces of property sold for ten or fifteen years ago. What are they worth today? We do not need to answer. In the history of the past you have many models, and all before you is an almost absolute certainty that real estate values will continue to rise, with the increase of population and the natural demands for residential and business locations. Which do you prefer, the comforts of your own home or a package of rent receipts, and live in the other fellow's house? Why longer pay tribute to Cæsar? Why not be independent?

HOW BOYS SUCCEED.

If a boy is to succeed in life's battle for bread and position among those at the top he must be alive, says an exchange. If he is a cigarette fiend he will never be anything or anybody but a common drudge. Success tells what a young man must do to win: "No young man can hope to advance rapidly who lacks an enterprising progressive spirit. Indeed, enterprise is a requisite to employment. No one wants to employ a youth who lacks push. He must be alive to and in touch with the spirit of the hour, or he is not wanted anywhere. The enterprising employer wants every employe to share his spirit. The enterprising man feels all the more keenly the need of assistance from those who can make up for his failing. Force, push, dynamic qualities are everywhere in eager demand, while the dawdling, incompetent, unprogressive wait in vain for a start or for promotion."

Prices on naval stores seem to be going higher and higher, and resin that has been sold at a moderate price, now leaps to the handsome price of $4.10 per barrel. If it keeps on soaring upward it will soon be as valuable as chunks of gold. HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

PERMANENTLY CURES
CONSUMPTION, COUGHS, COLDS, BRONCHITIS ASTHMA, SORE THROAT, HOARSENESS WHOOPING COUGH AND CROUP

DO NOT DELAY

Until the drain on your system produces permanent disability. The human breathing machinery is a wonderful system of tubes and cells. To have good health it must be kept in good order. A COLD is considered of no importance, yet if it was known by it's proper name of "throat inflamemation," or "congestion of the lungs," its dangerous character would be appreciated. When a cold makes its appearance use at once Ballard's Horehound Syrup which will speedily overcome it.
WHOOPING COUGH and CROUP Require Prompt Action. SNOW LINIMENT applied to the throat and chest gives wonderful relief, while Ballard's Horehound Syrup will rapidly stop the violent paroxysms of coughing. IT IS THE ONLY COUGH REMEDY THAT WILL POSITIVELY CURE WHOOPING COUGH AND CROUP.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

BIG PROMOTER BANKRUPTS.

Liabilities $495,474; Assets $4,000—His Liabilities Are Borrowed Money.

New York, Oct. 18.—James A. Simons, promoter and contractor has filed a petition in bankruptcy with liabilities placed at $495,474, and nominal assets of $4,000, in bonds of a Richmond standard steel spike and iron company. His liabilities are principally on borrowed money on open accounts. Most of the debts were contracted in 1888 and 1891, some, however, between 1891 and 1905. His liabilities, $1,000 secured to Turner Bros. by $4,000 bonds of the Richmond Steel company. Among Simon's creditors are:

Russell Sage, $21,095, on three judgments on notes; White National bank of Ft. Wayne, Ind., $9,180; Wilson County Oil company of Texas, $43,900; Adam Dutenhoffer, $56,000, and Frank Walling, $66,783.

The bankruptcy proceedings are the aftermath of the financial troubles of Simons and his partners, which culminated in the imprisoning of Simons and one or two others.

Simons came here in 1888 from the west. He devised a scheme for the establishment of a chain of banks which would permit him to back his projects. He had been interested in the construction of a Massachusetts Canal Empire, a gas and electric light company.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by all druggists.

Final Survey of Sunken Ship.

New York, Oct. 18.—The final survey of the steamship Chatham, which was blown up in the Suez canal to clear the channel, shows that her boilers were damaged, but not displaced; the engines are disabled but two of her holds are intact, says a dispatch to the Herald from Alexandria. Her poop is practically solid, but the stern frame was blown 24 feet aft. It is expected that six or eight months must elapse before the remains are removed. Night traffic, it is hoped, will be resumed at an early date past the spot.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung distress; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

Politics Quiet in Alabama.

Birmingham, Ala., Oct. 18.—Since the calling off of the extra legislative session, by the governor, there has been little doing in Alabama politics. Frank Julian of Tuscumbia, has announced for secretary of state, an office which he was defeated last time by Congressman Heflin. Mr. Julian is quite popular, and makes a formidable candidate. Hon. Alex M. Garber, of Talladega, is out for the attorneyship, with no one thus far opposing him, and it stated in some quarters that he will have no opposition. He was narrowly defeated in the last race by Massey Wilson. Horace Hood, of the Montgomery Journal, wants to be auditor, and is being groomed for that race.

Chicago's Oldest Settler Dead.

Chicago, Oct. 18.—Stephen Francis Gale, one of the oldest settlers of Chicago, died yesterday at the age of 093. Mr. Gale came to Chicago from Boston in 1835 and opened a book and stationery store. His store and his successful real estate dealer business soon made his fortune and in 1855 he retired from active business. He is remembered by old-timers chiefly for his connection with the Red Jackets, one of the early fire fighting brigades.

Insomnia and Indigestion Cured.

"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months, when I used Chamberlain's Stomach and Liver Tablets and received immediate relief," says John Dixon, Tullamore, Ontario, Canada. For sale by all druggists.

Must Not Aid Dominicans.

Washington, Oct. 18.—Exportations of arms, ammunition and munitions of war of every kind from any port of the United States and Porto Rico to any part of the Dominican Republic is prohibited by a presidential proclamation issued from the state department today. Accompanying the proclamation is an explanatory memorandum to the effect that this action has been taken after consultation with the Dominican government with their concurrence and is intended to assist them in the enforcement of their regulations designed to prevent the perennial revolutionists of the island from getting warlike supplies.

Pain in the Head

Is a danger signal, warning you that the brain nerves are exhausted—irritated, and are undergoing an unnatural strain.

Frequent and prolonged attacks of pain weaken the generative power of the nerve cells of the brain, and lead to loss of memory, melancholy, spasms, epilepsy, and frequently insanity.

When the brain nerves are weakened they are unable to supply sufficient nerve force to the nerves that control the lungs, heart, stomach and other organs, and these organs are thus robbed of energy, and unable to meet the demands upon them, and they get sick.

Stop the head pains with Dr. Miles' Anti-Pain Pills, and the influence upon your general health will be greater than you can realize.

"I want to tell you how thankful I am for Dr. Miles' Anti-Pain Pills. From a child I have been subject to sick headache, and never found any lasting relief until I received a sample of Dr. Miles' Anti-Pain Pills while in Geneva six years ago. By taking one it usually throws off my pain, so I can go about my home duties."
MRS. ALMA GATES,
R. F. D., No. 4, Geneva, Ohio.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk.

A POOR FILTER.

Why One Central American Town Had Bad Drinking Water.

Here is an incident that illustrates the unexpected difficulties which enterprise has sometimes to face in certain regions of Central America: From a certain large lake an important town drew its supply of water. By means of powerful steam driven pumps the water was drawn from the lake through a strong iron pipe, which, after running some eighty or ninety yards into the lake from the shore, ended in an upward turn, a short arm bent at right angles to the pipe and rising to within a few feet of the surface. Suddenly an epidemic visited the town in question. The company's reputation being threatened, it was decided to straightway pull up the streets and expose the main pipes and conduits.

The entire system was laid bare, from the outskirts of the town to the very shores of the lake, but the minutest examination failed to reveal any suspicious feature. Then, almost at their wits' end, for the epidemic was raging as badly as ever, the officials entered upon the last lap and turned their attention to the submerged portions of the conduit, and here it was they found the cause. A huge alligator had been drawn toward the mouth of the main by the very strong influx, and, being unable to release itself from the suction, had remained there until it died, and thus, for goodness knows how long, all the water consumed in the town had first filtered through the decomposed carcass of the alligator.

HUMANITY'S HUNGERS.

What They Are and the Ages at Which They First Appear.

Professor Earl Barnes is authority for the following list of "human hungers" and the ages at which they can first be noticed:

Hunger for food and drink—infancy.
Hunger for action—infancy.
Hunger for knowledge—infancy.
Hunger for companionship — six weeks.
Hunger for property—two years.
Hunger for self aggrandisement—five years.
Hunger for beauty—two years.
Hunger for reasoning—seven years.
Hunger for worship—thirteen years.
Hunger for righteousness—fifteen years.

The natural desire for food and drink is strongest, said the professor, at birth. After twenty the appetite should, if not misused, become less and less till at seventy a man or woman ought to require only one small meal a day.

The "hunger" for property is very strong at about fifteen—the "collecting" age, when boys will amass anything, from stamps to beetles. When all other "hungers" fail the "property hunger" still exists, and a man is most likely to be a miser when he is nearest his grave.

The "hunger" for beauty—that is, the real "beauty hunger," which means the admiration of art for art's sake—is the most uncommon of all.—London Express.

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequaled. For sale by all druggists.

Worth's Panacea.

In the year 1884 great commercial distress was experienced throughout France, and M. Worth, the famous fashion originator and dressmaker, was called before a parliamentary committee instituted to inquire into the causes and asked for his theory and his remedy. The salaries of the president of the republic and the ministers, said the great man milliner, ought to be considerably raised because balls cost much more than dinners, and official people ought to be paid salaries handsome enough to enable them to give a great many balls. M. Grevy, said Worth in disgust, only gave two balls a year, and the crush was so great that ladies elected to wear their old dresses rather than buy new ones, which would most assuredly be spoiled in the crowd. Pay higher salaries, give more balls and ask fewer guests to each function—this was Worth's remedy. The ladies, relieved of the fear of a crush, would invest in new dresses, money would circulate, trade would revive and all would go as merrily as marriage bells.

Shakespeare a Bad Sleeper.

Personally I should say, writes F. F. Montague in the London Saturday Review, that Shakespeare was a bad sleeper. The well known lines in "Henry IV." suggest the passionate longing for sleep which only those who have experienced the long drawn misery of a "white night" can feel. Again, what is more suggestive of a lie awake night in London in August than

O comfort killing night, image of hell!

or

O hateful, vaporous and foggy night!

in "The Rape of Lucrece."

Or, again, take the twenty-seventh sonnet:

Weary with toil, I haste me to my bed,
The dear repose for limbs with travel tired,
But then begins a journey in my head
To work my mind when body's work's expired.

This seems to me the true wail of the insomnolent, and the sonnets are supposed to be autobiographical, I believe.

Compromising a Tenor.

Czar Nicholas I. used to walk the streets of St. Petersburg alone wrapped in a large gray cloak. It was forbidden to speak to him, but the czar sometimes forgot that a subject could not obey the prohibition if the emperor addressed him.

Once the czar met in a park the tenor singer of the Italian opera and exchanged a few words with him. The moment the czar was out of sight the police arrested the tenor. That evening the czar attended the opera, where, after a long delay, the manager announced that the tenor could not be found. Nicholas guessed what had happened and sent an aid-de-camp to release the singer.

A few days after the czar again met the tenor and began with an apology:

"I was very sorry"—

"May I implore your majesty," the Italian exclaimed, "not to speak to me? Your majesty will compromise me with the police."

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

The Ancient Spontoon.

A spontoon, a weapon similar to the halbert, was borne instead of a half pike by officers of British infantry till the year 1793. Pointed backward or forward, it gave the signal for advance or retreat, and planted upright in the ground it commanded a halt. Specimens can be seen in the Tower armory.

In the Morning Chronicle of April 15, 1784, there is a reference to its discontinuance: "Yesterday the officers who mounted guard for St. James', the Queen's House and Tilt yard were paraded with their swords drawn instead of the spontoon for the first time since the alteration took place, and we hear that the amendment (if it may be so called) is to take place among all the regiments belonging to his majesty."

In an old play Major Sturgeon says: "Oh, could you but see me salute! You have never a spontoon in the house?" "No," answers Sir Jacob, "but we could get you a shove pike."

Mothers

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

The St. Bernard Pass.

The examinations made at the Great St. Bernard show that the pass was not only used by foot passengers, but by horsemen in Roman times. It seems that it was a safer route in the time of Vitellius than until the last few years. Excavations demonstrate that there were two buildings, much farther apart than is the present road. There was a temple there, and some fifty votive tablets have been found. It must always have been a place of refuge, though often subjected to attack. Signs of violence are demonstrated by the fact that votive tablets have been discovered broken and thrown into the swamp below. It was in the eleventh century that St. Bernard of Menthon founded the modern hospice.

Tongs.

Tongs were said to have been invented in China B. C. 1122, but representations of them have been found on the Egyptian monuments B. C. 2200. In India they are claimed as in use since B. C. 900, and their principal employment in that country, where fires during the most of the year are superfluous, was to facilitate the handling of dead bodies in the funeral pyres. Seventy pairs of tongs, some bronze, some iron, have been taken from the ruins of Pompeii.

An Awful Dig.

"Oh, dear, I'm going on the stage next month. Aren't you surprised?"

"Why, no. I'm sure you will have no trouble in getting a position."

"Why do you think so?"

"Because there are very few women who are willing to take the grandmother parts."—Dallas News.

Ceremonies.

A very ceremonious Spaniard when asked why he was not present at the funeral of a certain personage replied: "Because he owed me a call."—Humor of Spain.

Economy is in itself a source of great revenue.—Seneca.

READING HABITS.

You Must Cultivate System If You Would Improve Your Mind.

The mind is a very delicate, complicated piece of mechanism, and, although made to do a certain kind of work marvelously well, yet, when put to an entirely different use, its efficiency is ruined, just as the delicate machinery intended for producing fine watch parts would be completely spoiled for this purpose if used to make clock parts. When the mind becomes deflected to a certain extent from its normal condition by the vicious reading habit, it diverges more and more and rarely goes back to the normal.

By desultory habits of reading and lack of system you confuse the mind with a large mass of unclassified material. You pick up a book and read a few pages and then pick up another one and then go from that to a paper or magazine. This puts the mind in a chaotic state, because you let everything run into the mental reservoir without any order or definite plans. Systemless reading is profitless. You cannot gain knowledge of a friend or prize his friendship by a hasty first impression, so in reading a book you cannot gain everlasting good by skimming over its contents or by reading a few pages one night and then putting it on a shelf to gather dust until you get time to read it again. Everything comes out of the mind as it went in, and if it does not enter in an orderly manner it will come out in chaos. —Success.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

An Offer Declined.

Persons who are envious of those whom they are pleased to call the fortunate rarely count the cost of success. Apropos of this, an amusing story is told of General Lefevre, duke of Dantzic. One day the general had a visit from a friend of his youth, who commented, not without feelings of envy, on the dignities and riches which the duke, who was born in a peasant's cottage, had acquired in many battles and by his faithful services.

"Oh, I am prepared," was the rejoinder, "to hand them over to you at the very price I paid for them. We will proceed together into my garden. There you shall walk up and down for the space of half an hour while I command a company of infantry to fire on you. There were more in my case, but you shall have the benefit of altered circumstances. If you are not shot in thirty minutes all that is mine shall be yours."

An Arab In the Rain.

"Those who are not accustomed to rain are frightened by it," says a writer. "I once saw an Arab rained upon for the first time. He was abjectly terrified and demanded to have his passage paid from the country—Sicily—in which the dread phenomenon occurred. He had been conveyed from the Sahara, I think, by a European, whose servant he was, and he evidently thought his master was behaving abominably to him in permitting him to get wet. By the first steamer he returned to his native desert, abandoning excellent wages, and shaking the raindrops furiously from his slippered feet."

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.

READ THIS.

MOBILE, ALA., Dec. 24, 1899.

Dr. E. W. Hall, St. Louis, Mo.—Dear Sir: Having tried different doctors and their remedies for several years for back and kidney troubles, I found nothing successful until taking "The Texas Wonder," Hall's Great Discovery, and, being rapidly cured, the old saying with railroad men is "God bless the man who invented the Pullman sleeping car," but I say "God bless the inventor of Hall's Texas Wonder."

Yours truly,
W. B. CLARK,
M. & O. R. R. Co., Mobile, Ala.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 620, St. Louis, Mo. Send for testimonials. Sold by all druggists.

The funeral of Miss Francis V. Wilcox took place from Trinity Episcopal Church at 3 p. m. yesterday, Rev. F. H. Craighill officiating. The occasion was a sad one, the relatives being unable to attend. Kind friends did all they could to show their true Christian spirit, and the kind deeds and tokens of respect were very graceously bestowed. The interment took place in Evergreen cemetery.

At a special session of the county commissioners yesterday, called for that purpose, the books of County Tax Assessor Colson were examined and accepted by that august body. The books showed a very clever piece of work and a balance that was absolutely correct. The total valuation of property in the county is placed at $4,798,748. The State tax amounts to $28,792—county tax, $60,555, including poll tax.

W. D. Dickinson, county tax collector, has always something on hand in his office, and states that from February 1st to June 1st he averages about sixteen hours, making out his books for collecting the taxes of the county. He says it is surprising to see how many who live outside own a strip of mother earth in Alachua county. He says that two tax receipts are sent out by mail to one handed out. The largest amount paid by one property owner is $2,485, the receipt giving a discription of 56,000 acres.

Important Meeting.

The ministers of the city are planning for a meeting of citizens at the court house next Tuesday evening to take some action in regard to people who come to the city and go from store to store and house to house, asking for assistance, claiming to be needy and telling other hard-luck stories.

The meeting will be called to perfect some sort of charity work, so that there will be someone in charge of the matter and our people will not be imposed on by those who are not deserving. Frequently there are cases that need investigation, as the parties who ask alms are abundantly able to work.

Elks' Meeting Tonight.

There will be a regular meeting of Gainesville Lodge, B. P. O. E., in Masonic Hall this evening at 8 o'clock. Work will be on hand. A full attendance is desired. L. C. LYNCH, E. R.
A. M. CUSHMAN, Sec.

MILLINERY OPENING

At G. W. Hyde's Mammoth Establishment on Wednesday.

The ladies of the city and some from other cities were in attendance at the opening of fall millinery at Hyde's on Wednesday morning, and by 10 o'clock it sounded as though all were uttering exclaimations of admiration at once. Miss McClamroch and her assistants, Misses Wilcox and Neville, were busy waiting on customers and by noon upwards of 30 hats had been sold, so it is readily seen that the fine goods caught the popular fancy.

The new hats are very rich in colors, and present a piquancy that is most charming. The round hat in green, with shaded plume, is a popular favorite, while the Alice blue is still a leader in correctness of color, being the reigning shade in the ultra fashionable circles, with flowers and wings of birds for ornament. There were attractive hats made of crepe de chine, with chiffon and paone velvet, in plum color, with bird of Paradise aigrette, that were admired for their richness of color and modesty in trim. Dresden ribbons are much used, also the delicate tints of blue and green. Polo street hats and other patterns made up a display that was admired by the large crowd of visitors present during the day.

CHILDREN'S HOME.

A Noble Work for the Little Ones That Need a Friend.

Mrs. Cora Hawley Seaton of Jacksonville, superintendent of the Children's Home Society of Florida with headquarters in Jacksonville, is in the city on a mission of mercy. She expects to return to Jacksonville today, and take with her two infants which will be under the tender care of this society until they can be placed with some responsible family.

This lady informs The Sun that she has already placed three children in homes from this city since August, and the two she takes to Jacksonville today will make five.

The work of this society is in charge of some of the best people of Jacksonville, and these little ones whose parents are not able to care for them are placed in good families.

The society is auxiliary to kindred organizations throughout the different States of this country, and although in its infancy in Florida, there will no doubt soon be a deeper interest taken in the work by the charitably inclined people of Florida, and a home established that will be a credit to the State.

THE YELLOW FEVER.

Desperate Effort at Pensacola—New Orleans is More Hopeful.

Pensacola, October 18.—Three new cases were reported to noon and two deaths. Yesterday there were 13 new cases reported and five deaths up to 6 p. m. There are 170 cases under treatment.

The two doctors who failed to report cases were fined $25 each and costs. An appeal was taken.

At New Orleans.

New Orleans, October, 18.—The record made here yesterday was remarkable. For the entire day only seven cases were reported, and all of those were before 2 o'clock. There was only one death for the twenty-four hours ending at 6 o'clock last night.

Today may also prove that the yellow fever is being rapidly stamped out, as four new cases and no deaths were reported up to noon. The total number of cases reach 3,239, and the total number of deaths 435. No new cases were reported from the country parishes today.

PEOPLE RETURNING TO THEIR HOMES

New Orleans Citizens No Longer Fear Yellow Jack.

QUARANTINES ARE BEING RAISED

Influx of People to Ccrescen City from Surrounding Contry Is Large, and the Hotel Registers Show that a Great Many Visitors Are in City.

New Orleans, Oct. 18.—The rush of New Orleans people to their homes continues, partly induced by the fact that the danger from fever is practically over and partly by anxiety to be here during the visit of President Roosevelt.

Many representative business men and financiers are cutting their vacations short in order to assist in showing to the president how much his services during the fever fight are appreciated.

The influx of people from the surrounding states and more remote sections of the country is also on. The hotels report comparatively long lists of arrivals and the lists promise to grow daily from now on. Commercial travelers from the north, east and west, who have been kept away for three months, are also putting in an appearance.

The country towns that are lifting the quarantines are crowded with mechanics, laborers, clerks and others interested in the sugar industry.

The lines of the Texas Pacific and Mississippi Valley, both of which traverse the sugar country, are gradually being opened.

The local fever situation mends steadily. At the rate at which the week has begun the deaths for the seven days will probably equal those of the past week, but there promises to be another striking diminution in the number of cases. In the state during the preceding 24 hours there were only two deaths and the first good news in a long time came from Patterson of only one new case in two days. The light frost of last week is believed to have done much toward the destruction of infected mosquitoes in the city

The attendance at the New Orleans public schools is now reported to be 25,000; a gain of over 5,000 since the opening two weeks ago. Two more of the schools opened this week, leaving only two unopened.

Dr. White has accepted an invitation to be the guest of the country club at a banquet to be given on Oct. 28. The banquet is to be an expression of the club's appreciation of Dr. White's services in the fever fight.

New Iberia has not altogether adopted the mosquito theory. It has decided to quarantine houses in which cases of fever exist. There are sixteen cases there now. Only one death has occurred.

Two New Cases; No Deaths.

Up to noon today there were two new cases of yellow fever and no deaths.

Orders were issued today to receive no more patients at the Emergency hospital.

Although there is a forecast of a fall in the temperature tomorrow, the weather today is clear and warm, which is not considered favorable weather for the further removal of quarantines. However, there is great confidence that in view of the continued improvement the next spell of cold weather will bring a general collapse of the restrictions.

A brisk movement in grain has started and Vice President Harahan, of the Illinois Central, who is here, declares that the indications are all pointing to record-breaking imports through this port this season. The reconstruction of the Stuyvesant docks has been practically completed.

Young Girl Shoots Herself.

Mobile, Ala., Oct. 18.—Miss Susie Jones, aged 16, shot herself through the breast near the heart. Miss Jones is now at the city hospital in a precarious condition and her recovery is considered doubtful. Despondency over a love affair is supposed to be the cause.

KILLED BY DRUNKEN MAN.

While Sitting on City Hall Steps Man is Shot to Death.

Anniston, Ala., Oct. 18.—J. W. Trigg, one of the most prominent citizens of Anniston, is dead, and Chief of Police Dill badly, but not dangerously wounded as a result of an unusual shooting affray here.

L. E. Pippin, overseer of the city streets, did the shooting. All three of the principals were good friends.

Pippin had been drinking heavily during the late afternoon, and about 9 o'clock passed down the street in front of the city hall, on the steps of which Mr. Trigg and Chief Dill were sitting talking. Pippin, after speaking pleasantly to both gentlemen, suddenly whipped out two pistols and opened fire in the direction of the city hall steps. Mr. Trigg fell mortally wounded in the right breast, and Chief Dill received two painful flesh wounds, after which he overpowered Pippin and ordered him locked up.

The shooting was entirely without provocation, acording to eye-witnesses. Pippin's friends say he did not know what he was doing, as his relations with both Mr. Trigg and Chief Dill have always been most cordial.

Mr. Trigg was a prominent furniture dealer, and was formerly a resident of Atlanta.

RAWLINGS MAKES CONFESSION.

Tells that His Sons Were Not Implicated in Murder.

Valdosta, Ga., Oct. 18.—A considerable sensation was created here by the confession of J. G. Rawlings, in which he acknowledged that he hirde the condemned accomplice, Alf Moore, to kill Carter.

Rawlings attempts to clear his sons of complicity in the assassination of the Carter children last June, and while he admits hiring Alf Moore to "put old man Carter out of the way," he still contends that neither one of his sons was present or had anything to to with the tragedy.

It has been rumored for several days that the elder Rawlings contemplated confessing his part in the crime, and once or twice in conversation with visitors to the jail he was trapped into alleged incriminating admissions. His action today, however, was entirely voluntary, unless it be that he was persuaded to the course by his wife, who, it has been freely stated, recently came to see him for the purpose of trying to get him to shoulder the responsibility for the assassinations and try to save his sons from the gallows.

FARMERS WILL BUY COTTON.

Georgia Planters Will Purchase Staple Below 11 Cents a Pound.

Sparta Ga., Oct. 18.—The following resolutions were adopted at the meeting of the Hancock County Cotton assocaition, the object being to form an organization to enter the market for the purchase of all cotton offered for sale below 11 cents:

"Resolved, That we form a local association for the purchase of all cotton forced to or offered for sale below 11 cents, the minimum price fixed by the association as the mraket price for middling grade.

"The chairman to appoint a committee of four, beside himself, to arrange ways and means.

"We commend such a course to each county association in the cotton belt as being the only practical way to form a cotton holding company, from which the producers themselves will reap the benefit."

Large Cargo of Whalebone.

New York, Oct. 18.—A special to the Tribune from New Bedford, Mass. says that the whaling schooner Erie arrived in port Monday from Hudson Bay, after a severe voyage carrying 5,000 pounds of whalebone. She reports that the Norwegian Arctic exploring expedition was successful in making the northwest passage, Captain Comer basing his statements on a letter he had from Commander Amundson, of the sloop Gjoa, who was at the time, April 23, in King Wilhelms' Land. The natives reported that the Norwegians have made the passage and the commander himself later sent word that the Gjoa would work her way out to Behring straight during the summer.

MISS ROOSEVELT TO PAY CUSTOMS DUTY

President's Daughter Will Not Be Exempt From Tax.

RETURNS WITH LOADS OF GIFTS

While Visiting the Different Far Eastern Nations, Miss Roosevelt Has Been Recipient of Many Presents in Value to the Amount of $100,000.

Chicago, Oct. 18.—A dispatch to the Record-Herald from Washington, says:

Secretry Shaw and Collector of the Port of San Francisco have had a load of trouble for several weeks about which the public has known nothing, and it was lifted yesterday when the secretary was told by President Roosevent to collect the legal duty on all dutiable articles brought back to this country by Miss Alice Roosevelt. The total of the duty is expected to be nearly $60,000.

The daughter of the president has received during her trip to the Philippines, China, Japan and Korea many pretty and some quite valuable souvenirs.

Some one suggested that Miss Roosevelt be allowed to bring the articles duty free as she was treated with all the honors of a princess and did much to cement the friendship between the United States and foreign countries. The belongings of the crowned heads, of royalty and of diplomats are thus admitted duty free into the United States. Secretary Shaw received suggestions until he was almost sick. All that stood out before his official gaze was that the presents had been reported as worth probably $100,000, and if the usual rate of duty was imposed it would cost Miss Roosevelt or her father upward of 60 per cent or $60,000.

Neither Miss Roosevelt nor her father is rich, although the young woman is understood to have a modest fortune in her own right. Finally Secretary Shaw took his burden to the president and told him all about it.

"There is but one thing to do," said the president. "That is to treat my daughter's baggage as you would the baggage of any other private person. She will pay duty on everything that is dutiable."

Disturbances at St. Petersburg.

St. Petersburg, Oct. 17.—6:20 p. m.—In an encounter between the police and the striking printers at the government bureau of printing and engraing, this afternoon forty persons were injured but one seriously. The printers attempted to hold a meeting against the command of the minister of finance, Kokovskoff, who requisitioned the police and the strikers were driven from the building. Shooting has just been reported from the Pehl cotton mill in the eastern suburb of tais city. The strike broke out this morning. A telephone message says the disturbance is not serious.

Warships Go to Venezuela.

Paris, Oct. 18.—The departure of the armored cruiser Desaix from Cherbourg yesterday for the island of Martinique, French West Indies, inaugurates the preparations for dealing with the Venezuelan question with a strong hand, if President Castro persists in his present course. The Desaix will stop at Brest, where she will be joined by the cruisers LaVersier and Chasseloup-Laubat. The three warships will then proceed together to the French West Indies, joining the cruisers Jurien de LaGraviere and Troude, now at Martinique.

Preparing to Receive Bryan.

Manila, Oct. 18.—Preparations are being made here for an elaborate reception and banquet to be tendered to William Jennings Bryan on his arrival in Manila by native Filipinos, principal among whom are the former insurgents Gomes and Luchana, and the famous Lopez family. The American admirers of Mr. Bryan are holding aloof from the Filipinos and will give him a separate banquet. The Elks will also give a banquet in Mr. Bryan's honor.

"BLACK HAND "SOCIETY AGAIN.

This Time They Dynamite a Grocery Store of New York Italian.

New York, Oct. 18.—A charge of dynamite exploded in the doorway of the grocery store of Antonio Garbatvo, 13 Stanton street, on the East Side, a few minutes after 3 o'clock this morning, wrecked the lower half of the front of the building, shattered the windows in the tenements above and threw into a panic hundreds of tenants in the immediate neighborhood.

Windows in the tenement building at 10 Stanton street, opposite, were also broken. No one was dangerously injured, although many bruises and cut were received in the hurry of the befrightened tenements to escape from their houses following their sudden awakening.

The outrage is believed by the police to have been directed against Garbatvo, who has two sisters occupying living rooms in the building.

Garbatvo a week ago received a "black hand" letter demanding $1,000. He turned the letter over to the peace officers and since they have been trying to identfy the author.

FEARFUL STORY OF SHIPWRECK.

Only Two of Crew Escape—Six Are Drowned or Suicided.

Boston, Oct. 18.—A story of a north Atlantic shipwreck, in which eight seamen suffered so fearfully from exposure, hunger and thirst, that six of them either died outright, were washed away or crazed by their fearful experience, threw themselves into the sea, was told by the two survivors of the coasting schooner, Vanname and King, of New Haven, which was beaten to pieces by a gale off the South Carolina coast on Oct. 6.

The two men who lived through the five days were rescued by the schooner Stillman F. Kelly, which arrived here late today, are William Thomas and William G. Warner, both 29 years old, and hail from Antigna, British West Indies. The six who, one by one, succumbed, were:

Captain William A. Maxwell, of New Jersey; Mate A Chase, home unknown; engineer, a German, name unknown; negro steward, name unknown; William Grizell and Fred Arthur, negro seamen, both from Jamaica.

WOMAN FOUND UNCONSCIOUS.

Police Do Not Know Whether It is a Case of Murder or Suicide.

New York, Oct. 18.—A woman apparently but 25 or 30 years of age, was found in the wagon shed of a brewing company in the rear of the Fulton avenue, the Bronx, last night.

She was alive but unconscious. There were three bullet holes in her neck.

At the hospital it was said that there was no chance of her recovery in a pocketbook were $5.15, a trunk key, a pair of silk gloves and this note in German, addressed to a man:

"I hope you may get your deserts. I always was a decent girl. I pray God will forgive me and punish you. Please bury me in the poor cemetery. Make no attempt to find my relatives. (Signed) V. Anna Laonge."

The police are at a loss to know how the wounds could be self inflicted, if, as the note indicates, the case was suicide.

Wild Elks Are Captured.

Bakersfield, Cal., Oct. 18—As a result of the second day's drive of the herd of wild elk which for years past have made their feeding grounds at the Miller nad Lux ranch, at Button Willow, 30 miles south of this city, 22 perfect specimens were captured w the lariat yesterday and of these 20 lived to be transferred to the government reserve Sequoia park. At least 175 are still at large. The task of transferring the herd is to be abandoned for the present.

Kind of Statehood Wanted.

Tucson, Ariz., Oct. 18.—A Star special from Prescott, says that the Arizonians have adopted a resolution urging congress to incorporate in the Arizona statehood bil a prohibition against the licensing of gambling, lotteries and the sale of intoxicating liquors in the state of Arizona, claiming the protection of Arizona Indians and the citizenship of the state, as provided in the Oklahoma bill.

NEGRO IS LYNCHED BY KENTUCKY MOB

He Shot and Killed Prominent Farmer in that State.

MOB WAS MASKED AND ARMED

The Negro Had Been Found Guilty by Two Different Juries and Had Been Sentenced to Life Imprisonment—No Clew to the Lynchers.

London, Ky., Oct. 18.—Virgil Bowers, a negro, was taken from the county jail here last night at 11:30 o'clock and hanged to an apple tree in a road leading to Barbourville.

The negro shot and killed George Faris, a prominent and wealthy Knox county lumber dealer, on the night of Aug. 26.

The negro was tried by the Laurel county jury early last week. The jury disagreed, being 10 for the death penalty and 2 for a life imprisonment sentence.

A second trial by a jury brought from Rock Castle county, rendered a verdict for life imprisonment after ten jurors had voted for hanging.

The mob is thought to have come from Knox county. All were masked and were armed with guns, pistols, sledges, picks, axes an ddynamite.

The mob forced the jailer to deliver up the prisoner.

Cowhided While in Court.

St. Augustine, Fla., Oct. 18.—The preliminary trials of the four Osteen brothers, accused of the murder of Geo. and Edward Carter, was held Monday. Judge Mackay decided to hold all the defendants under $1,000 bond each to answer such indictments as may be found at the November term of the circuit court. The fifth brother, James Osteen, has not yet been captured. A sensational affair grew out of the trial shortly after the court adjourned at noon. Louis Mickler, of Diego, attacked and severely cowhided Perry Greene, of Moultrie, before the affair was stopped by the outsiders. It was said that Mickled had been bitter against Green for years on acount of an insulting letter Green is alleged to have written to his wife. The two attended the trial and the cowhiding followed. After the affair the two men went in opposite directions.

Dixon's Play Was Hissed.

Columbia, S. C., Oct. 18.—The appearance in this city of the "Clansman." Thomas Dixon's new play, which deals with the reconstruction period, under negro rule in South Carolina, was the most largely attended of any play that has been presented here in recent years That the large attendance was not due to approval of the drama was manifest by the hissing of the audience throughout the performance. This, however, was more especially emphasized when at the end of the first scene in the third act.

Scottish Rite Masons in Session.

Washington, Oct. 18.—The supreme council for the southern jurisdiction of the United States, Ancient and Accepted Scottish Rite, began the second day's session of that body this morning by receiving their report of the committee on jurisprudence and legislation through its chairman, George Moore, of Alabama. The report seeks to make more explicit the constitution and status of the supreme council and is most exhuastive in character, the committee having devoted two years' of study to bring about harmony in the laws and decisions.

Canal Commission Returns.

New York, Oct. 18—Members of the isthmian canal commission and the board of consulting engineers returned made a careful inspection of the Panama canal, arrived here today on the steamer Havana, from Colon. Geo. W. Davis, chairman of the consulting engineers, said that although the party had made a careful inspectio nof the proposed route for the canal no decision has been reached as to the sea level plan. He said that the board might reports its opinion on the best kind of canal in two or three weeks.

GEORGE W. MOYERS DIES SUDDENLY

At His New Home in South Jacksonville on Sunday.

HAD NOT BEEN IN GOOD HEALTH

Was Found on His Bed Partially Dressed by His Daughter—Had Been a Resident of Jacksonville Only a Short Time—Well Known Here.

The many friends of George W. Moyers, who only left Gainesville a short time ago to reside in South Jacksonville, were shocked to learn of his sudden death, which occurred on Sunday morning.

"Mr. Moyers had been troubled for the past three months with asthma," says The Times-Union, "but was not confined to the house, and on retiring Saturday night spoke of feeling better than he had for several weeks. Yesterday morning about 7 o'clock his daughter-in-law went to his room to awaken him, and getting no response, she became alarmed, and after some difficulty entered the room, to find him partially dressed, lying across the bed, dead.

"It is supposed that while dressing he became ill and dropped on the bed, where he was found.

"Although seventy years of age, he was a very active man, and never experienced any sickness during his whole life until a short time ago, and even then the attack was supposed to be slight."

The deceased was a resident of Gainesville for upwards of six years, where he and his estimable family have many friends who sympathize with them in their deep sorrow. He was a soldier in the Confederate army, and was as loyal to the cause as any man who ever shouldered a musket. He never forgot his comrades in arms, and to show his true devotion labored zealously to secure the erection of the monument that now stands on the public square as a tribute to their memory and reminder of their valor.

With his friends in the common walks of life he was equally devoted, and he respected a man wherever he saw him. He had many admiring friends in this city, and the announcement of his death was received with expressions of sorrow and regret from all who knew him.

He leaves a wife and four children to mourn his death—Mrs. Turner Brewer of Douglass, Ga., a son who lives at Washington, D. C., a son at Lakeland, Fla., and another who operates a phosphate mine at Dunnellon. Mrs. Moyers was in Georgia when she received the news. All have the sympathy of The Sun and the people of Gainesville.

The funeral of George W. Moyers took place from his late residence at South Jacksonville yesterday afternoon at 2:30 o'clock. The interment was in Phillips cemetery.—Jacksonville Times-Union, October 17.

SURVEY PROGRESSING.

The Gainesville & Gulf Surveying Party Steadily Advancing.

The work of running the line of survey from the terminus of the Gainesville & Gulf Railway to Tampa is being pushed as rapidly as possible. The Brooksville Star of last week has the following:

"J. W. Patton, chief engineer of the surveying corps of the Gainesville & Gulf Railroad, was in town on Sunday and Monday, having reached a point in the survey near this place, and was preparing to move camp farther on down the line. Just where the new road is to touch Brooksville has not been determined yet and our people are anxiously waiting to see, and are ready to meet the officials and give them all the assistance possible. This road will give us through connection from the North to Tampa and put us in touch with all parts of the country. It is just what we need and will be the means of developing our splendid agricultural lands, passing as it does, through the most fertile lands of this county, or we might say through the best lands in the State, for Hernando can boast of as rich and fertile soil as any county in any State."

THE CHANGE OF LIFE

INTELLIGENTWOMEN PREPARE

Dangers and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs A. E. G. Hyland, of Chestertown, Md., in a letter to Mrs. Pinkham, says:

Dear Mrs. Pinkham:—

"I had been suffering with falling of the womb for years and was passing through the change of life. My womb was badly swollen. I had a good deal of soreness, dizzy spells, headaches, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this important period women are invited to write to Mrs. Pinkham for advice. It is free and always helpful.

ARNO ANALECTS.

Crop Report—Hay is Proving Profitable—School Notes.

Arno, Oct. 16.—The farmers are busy gathering their crops. The corn crop is about twenty-five per cent short this year. Cotton and all other crops are very good.

Much more hay is being saved this year than ever before. There is no reason in the world why a Florida farmer should send a dollar North for hay, and we believe it will only be a few years before the farmers of Florida will raise all the hay the State needs. We can make as good hay and as much of it as any State in the Union. The writer cut this fall eight tons of hay from four acres, which was better than the best timothy hay, and as much in quantity as the best Northern timothy.

Our school—the Forest Grove school—is progressing nicely under the leadership of Prof. DeLard. The average attendance is above fifty, and increasing every week.

Prof. Allen, principal of the High Springs school, preached at Forest Grove yesterday, after which the church called him as their pastor for another year.

T. J. Terry has just finished painting his nice new house, which is quite an ornament to our neighborhood.

The school at the Brown schoolhouse opened last Monday with Miss Jones as teacher.

Miss Mary Moody, one of our popular young ladies, was married yesterday to a Mr. Boseman of Savannah, Ga.

Joseph Wilson and wife of Newberry were visiting yesterday at Thos. Brown's home, who is his wife's father.

ANOTHER BRICK BLOCK HAS CHANGED HANDS

Bodiford & McCollum Have Purchased Valuable Property.

SALE OF BURNETT BLOCK

Property Comprises Fine Business Lot and Substantial Brick Building Containing Five Stores—One of Best Locations in the City.

Another important real estate deal has been recorded here, Jas. S. Bodiford and J. W. McCollum, the druggists, having purchased the Burnett block, East Main street, S.

This block is one of the most desirably located in the city that was on the market at this time. The lot is 100 feet front on East Main street S., by ninety feet on West Masonic street, and contains a substantial brick structure of one story, with five roomy stores. When the public building and the Elks' club house are erected trade will naturally drift that way, which means that this property will command good rents and a high class of tenants.

The new owners are to be congratulated upon their purchase.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Assault and Battery.

A dark cloud seemed to hover around the county court-room at 10 a. m. on Monday, as the parties to the assault and battery case of the State of Florida vs. Trudie Johnson and Miss Rhoda Johnson, assembled. The parties hailed from near Kelley's mill, and Ed Johnson, a cousin of the defendants, was the victim, and the case was tried before Judge Mason without a jury. After about half a dozen witnesses had been sworn the Judge decided that the evidence was not sufficient to convict and the case was brought to an end and the defendants discharged.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

CONSTITUTIONALITY OF BUCKMAN BILL

To Be Attacked in the State Courts.

FIGHT NOW ON TO THE FINISH

Lake City People Mad Because State Board of Education Would Not Donate Entire Equipment of University. Refusal to Admit Student Ground.

The following appears in The Times-Union of 17th inst. under a Tallahassee date line:

"Judge Arch Henry of Lake City is here in consultation with Attorney-General Ellis. The citizens of Lake City, whom he represents, will probably institute legal proceedings to test the constitutionality of the Buckman bill.

"The refusal of the State Board of Education to convey the equipment of the University of Florida, as agreed at a meeting of the joint boards, July 24, is the cause of great dissatisfaction."

It has been understood by the people of Gainesville for some time that the Lake City people would contest the constitutionality of the Buckman Bill, their pretext for doing so being the refusal of President Sledd of the State University to admit a student who was not qualified under the provisions of the Buckman law.

The fight cannot commence too soon to suit the people of Gainesville, all of whom are anxious to have the question settled. The people of Lake City, that is the masses, are also equally anxious for a final settlement of the constitutionality of the law, and it is to be hoped that Judge Henry will no longer delay the instituting of legal proceedings in the matter, for no one at all acquainted with the situation ever doubted that it was the intention of certain Lake Cityites to do otherwise from the moment they were caught in the trap which they had set for Gainesville, Bartow, Tallahassee and DeFuniak.

Should the courts decide the law unconstitutional the various State schools would remain as they were prior to passage of the Buckman Bill, except that there would be no available funds with which to conduct them, and Governor Broward would face the alternative of depriving the children of Florida of the advantages of higher education for two years, or calling an extra session of the Legislature to make appropriation for operating the University and other State schools.

"Lay on MacDuff, and damned be he who first cries 'hold, enough.'"

A Pleasant Reception.

The members of the Earnest Workers' Society of the Presbyterian church were tendered a very pleasant reception at the home of Mr. and Mrs. G. S. Merchant Tuesday afternoon by Mrs. Merchant, the guest of honor being Miss Chaffa Gregory of Ocheesee, a former resident of this city and the first president of the society.

Nothing was omitted by the hostess calculated to make the occasion a happy social function as well as a meeting of the members of the society, and the large number present was entertained in a manner befitting the occasion. Refreshments were served and all acknowledged the occasion one long to be remembered.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." GODFREY-NEWTON WEDDING.

Solemnized at Madison, Ga.—A Brilliant Event.

Alachua, October 17.—Mr. and Mrs. F. B. Godfrey returned home on Monday from Madison, Ga., where on Thursday, October 12th, they were united in marriage. Mr. Godfrey is the popular cashier of the Bank of Alachua, a sterling young business man, and his many friends accord him and bride a hearty welcome. The Atlanta Journal of Tuesday contained the following account of the nuptials:

"The marriage of Miss Willie Ora Newton to Mr. Francis Bartow Godfrey was solemnized Thursday afternoon, Rev. W. LaPrade of Canton officiating.

"The entire first floor of 'Ivywood,' the beautiful country home of the bride, near Madison, was brilliantly lighted and decorated with bamboo, smilax and potted plants.

"In the front parlor a color scheme of white and green was observed. During the ceremony the bride and groom stood under an arch of white tulle and smilax from the center of which hung a yoke made of white violets and roses.

"In the center of the dining room where a pink and white color scheme, was carried out, stood a heart-shaped table made beautiful by bunches of pink tulle and ribbon and lighted candles with pink shades.

"Promptly at 2:30 o'clock, to the strains of the wedding march, the bridal party came down the broad stairway. First came Miss Agnes Godfrey, sister of the groom, and Miss Elizabeth Walton; then Miss Lula Walker and Miss Lucia Goddard of Griffin; Miss Mamie Cooper of Atlanta, and Miss Caroline Callaway; Miss Sims of Newnan, and Miss Sue Reid Walton; Miss Mary Walton Trammell and Miss Kitty Newton. These young ladies carried ropes of white tulle with which they formed an aisle from the foot of the steps to the altar. Next came the groom with his brother, Captain Erwin Godfrey, and then the bride with her maid of honor, Miss Annie Lucy Newton.

"During the ceremony a selection from Nevin was played by Miss Williams.

"The bride wore a charming going-away gown of dark blue velvet, with hat to match, and carried a shower bouquet of bride's roses. Miss Annie Lucy Newton, sister of the bride, wore white crepe de chine and carried pink roses. The wedding gifts which were seen in the library were numerous and handsome.

"The bride is the eldest daughter of Hon. John T. Newton of Morgan county, and is very popular in Madison and throughout the State. The groom is the youngest son of Mrs. Molly Walton Godfrey, and is a young man of prominence in social and business circles. For some time he has been connected with a bank in Alachua, Fla., where the young people will make their home.

"Assisting Mrs. Newton in receiving and entertaining her guests were Mrs. Elisha Gushman, Mrs. W. P. Walker, Mrs. W. H. Barnett, Mrs. Porter Rogers, Miss Lucie Newton."

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

MELROSE MELANGE.

Improvements at the Huffman House People Returning.

Melrose, October 16.—Mrs. M. S. M. Caldwell and C. P. Huffman have returned from their visits North; other new arrivals are Chas. Labor and wife and Miss J. Labor of Rhine, Kas.

W. S. Yearwood and family have moved into the cottage formerly occupied by Mrs. Corpew.

The cemetery working last Monday was attended by a large crowd, who did their work in a first-class manner.

H. Jackson is changing his pumping engine from two-inch to six-inch cylinder, also putting in a three inch supply pipe, these changes being necessary owing to the demand for water, which is very fine and clear.

O. C. Husband has returned from Palatka, having been on the jury during the past week.

The Huffman House is being put in first-class order for the coming season, the first guests being due November 1st. Quite a number of rooms are already engaged by their regular winter visitors.

Don't be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Quiet Wedding.

Monday afternoon, October 16 h, at half-past four o'clock, Dr. William Herbert Powers and Miss Violet Harris were quietly married in this city, Rev. L. W. Moore officiating.

The groom is a prominent and popular young physician and the bride the beautiful daughter of Mr. and Mrs. Frank Harris.—Ocala Banner.

Dr. Powers is known to many people in Gainesville as one of Ocala's popular physicians, while his charming bride has a host of young friends in this city who join The Sun in wishing them a happy married life.

Gainesville Girls.

Misses Pearl Whetstone, Gertrude Westgaard, Lena Baird, Carrie Dean and Eva Dean, a body of pretty Gainesville girls attending the Female College in this city, took in the State House yesterday, and the way the young bachelor clerks danced around explaining to them how the State government was run, proved quite conclusively that their visit was appreciated.—Tallahassee Daily Capital.

GEORGE W. MOYERS DIES SUDDENLY

At His New Home in South Jacksonville on Sunday.

HAD NOT BEEN IN GOOD HEALTH

Was Found on His Bed Partially Dressed by His Daughter—Had Been a Resident of Jacksonville Only a Short Time—Well Known Here.

The many friends of George W. Moyers, who only left Gainesville a short time ago to reside in South Jacksonville, were shocked to learn of his sudden death, which occurred on Sunday morning.

"Mr. Moyers had been troubled for the past three months with asthma," says The Times-Union, "but was not confined to the house, and on retiring Saturday night spoke of feeling better than he had for several weeks. Yesterday morning about 7 o'clock his daughter-in-law went to his room to awaken him, and getting no response, she became alarmed, and after some difficulty entered the room, to find him partially dressed, lying across the bed, dead.

"It is supposed that while dressing he became ill and dropped on the bed, where he was found.

"Although seventy years of age, he was a very active man, and never experienced any sickness during his whole life until a short time ago, and even then the attack was supposed to be slight."

The deceased was a resident of Gainesville for upwards of six years, where he and his estimable family have many friends who sympathize with them in their deep sorrow. He was a soldier in the Confederate army, and was as loyal to the cause as any man who ever shouldered a musket. He never forgot his comrades in arms, and to show his true devotion labored zealously to secure the erection of the monument that now stands on the public square as a tribute to their memory and remin der of their valor.

With his friends in the common walks of life he was equally devoted, and he respected a man wherever he saw him. He had many admiring friends in this city, and the announcement of his death was received with expressions of sorrow and regret from all who knew him.

He leaves a wife and four children to mourn his death—Mrs. Turner Brewer of Douglass, Ga., a son who lives at Washington, D. C., a son at Lakeland, Fla., and another who operates a phosphate mine at Dunnellon. Mrs. Moyers was in Georgia when she received the news. All have the sympathy of The Sun and the people of Gainesville.

The funeral of George W. Moyers took place from his late residence at South Jacksonville yesterday afternoon at 2:30 o'clock. The interment was in Phillips cemetery.—Jacksonville Times-Union, October 17.

SURVEY PROGRESSING.

The Gainesville & Gulf Surveying Party Steadily Advancing.

The work of running the line of survey from the terminus of the Gainesville & Gulf Railway to Tampa is being pushed as rapidly as possible. The Brooksville Star of last week has the following:

"J. W. Patton, chief engineer of the surveying corps of the Gainesville & Gulf Railroad, was in town on Sunday and Monday, having reached a point in the survey near this place, and was preparing to move camp farther on down the line. Just where the new road is to touch Brooksville has not been determined yet and our people are anxiously waiting to see, and are ready to meet the officials and give them all the assistance possible. This road will give us through connection from the North to Tampa and put us in touch with all parts of the country. It is just what we need and will be the means of developing our splendid agricultural lands, passing as it does, through the most fertile lands of this county, or we might say through the best lands in the State, for Hernando can boast of as rich and fertile soil as any county in any State."

THE CHANGE OF LIFE

INTELLIGENT WOMEN PREPARE

Dangers and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs A. E. G. Hyland, of Chestertown, Md., in a letter to Mrs. Pinkham, says:

Dear Mrs. Pinkham:—

"I had been suffering with falling of the womb for years and was passing through the change of life. My womb was badly swollen. I had a good deal of soreness, dizzy spells, headaches, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this important period women are invited to write to Mrs. Pinkham for advice. It is free and always helpful.

ARNO ANALECTS.

Crop Report—Hay is Proving Profitable—School Notes.

Arno, Oct. 16.—The farmers are busy gathering their crops. The corn crop is about twenty-five per cent short this year. Cotton and all other crops are very good.

Much more hay is being saved this year than ever before. There is no reason in the world why a Florida farmer should send a dollar North for hay, and we believe it will only be a few years before the farmers of Florida will raise all the hay the State needs. We can make as good hay and as much of it as any State in the Union. The writer cut this fall eight tons of hay from four acres, which was better than the best timothy hay, and as much in quantity as the best Northern timothy.

Our school—the Forest Grove school—is progressing nicely under the leadership of Prof. DeLard. The average attendance is above fifty, and increasing every week.

T. J. Terry has just finished painting his nice new house, which is quite an ornament to our neighborhood.

ANOTHER BRICK BLOCK HAS CHANGED HANDS

Bodiford & McCollum Have Purchased Valuable Property.

SALE OF BURNETT BLOCK

Property Comprises Fine Business Lot and Substantial Brick Building Containing Five Stores—One of Best Locations in the City.

Another important real estate deal has been recorded here, Jas. S. Bodiford and J. W. McCollum, the druggists, having purchased the Burnett block, East Main street, S.

This block is one of the most desirably located in the city that was on the market at this time. The lot is 100 feet front on East Main street S., by ninety feet on West Masonic street, and contains a substantial brick structure of one story, with five roomy stores. When the public building and the Elks' club house are erected trade will naturally drift that way, which means that this property will command good rents and a high class of tenants.

The new owners are to be congratulated upon their purchase.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Assault and Battery.

A dark cloud seemed to hover around the county court-room at 10 a. m. on Monday, as the parties to the assault and battery case of the State of Florida vs. Trudie Johnson and Miss Rhoda Johnson, assembled. The parties hailed from near Kelley's mill, and Ed Johnson, a cousin of the defendants, was the victim, and the case was tried before Judge Mason without a jury. After about half a dozen witnesses had been sworn the Judge decided that the evidence was not sufficient to convict and the case was brought to an end and the defendants discharged.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

CONSTITUTIONALITY OF BUCKMAN BILL

To Be Attacked in the State Courts.

FIGHT NOW ON TO THE FINISH

Lake City People Mad Because State Board of Education Would Not Donate Entire Equipment of University. Refusal to Admit Student Ground.

The following appears in The Times-Union of 17th inst. under a Tallahassee date line:

"Judge Arch Henry of Lake City is here in consultation with Attorney-General Ellis. The citizens of Lake City, whom he represents, will probably institute legal proceedings to test the constitutionality of the Buckman bill.

"The refusal of the State Board of Education to convey the equipment of the University of Florida, as agreed at a meeting of the joint boards, July 24, is the cause of great dissatisfaction."

It has been understood by the people of Gainesville for some time that the Lake City people would contest the constitutionality of the Buckman Bill, their pretext for doing so being the refusal of President Sledd of the State University to admit a student who was not qualified under the provisions of the Buckman law.

The fight cannot commence too soon to suit the people of Gainesville, all of whom are anxious to have the question settled. The people of Lake City, that is the masses, are also equally anxious for a final settlement of the constitutionality of the law, and it is to be hoped that Judge Henry will no longer delay the instituting of legal proceedings in the matter, for no one at all acquainted with the situation ever doubted that it was the intention of certain Lake Cityites to do otherwise from the moment they were caught in the trap which they had set for Gainesville, Bartow, Tallahassee and DeFuniak.

Should the courts decide the law unconstitutional the various State schools would remain as they were prior to passage of the Buckman Bill, except that there would be no available funds with which to conduct them, and Governor Broward would face the alternative of depriving the children of Florida of the advantages of higher education for two years, or calling an extra session of the Legislature to make appropriation for operating the University and other State schools.

A Pleasant Reception.

The members of the Earnest Workers' Society of the Presbyterian church were tendered a very pleasant reception at the home of Mr. and Mrs. G. S. Merchant Tuesday afternoon by Mrs. Merchant, the guest of honor being Miss Chaffa Gregory of Ocheesee, a former resident of this city and the first president of the society.

Nothing was omitted by the hostess calculated to make the occasion a happy social function as well as a meeting of the members of the society, and the large number present was entertained in a manner befitting the occasion. Refreshments were served and all acknowledged the occasion one long to be remembered.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." GODFREY-NEWTON WEDDING.

Solemnized at Madison, Ga.—A Brilliant Event.

Alachua, October 17.—Mr. and Mrs. F. B. Godfrey returned home on Monday from Madison, Ga., where on Thursday, October 12th, they were united in marriage. Mr. Godfrey is the popular cashier of the Bank of Alachua, a sterling young business man, and his many friends accord him and bride a hearty welcome. The Atlanta Journal of Tuesday contained the following account of the nuptials:

"The marriage of Miss Willie Ora Newton to Mr. Francis Bartow Godfrey was solemnized Thursday afternoon, Rev. W. LaPrade of Canton officiating.

"The entire first floor of 'Ivywood,' the beautiful country home of the bride, near Madison, was brilliantly lighted and decorated with bamboo, smilax and potted plants.

"In the front parlor a color scheme of white and green was observed. During the ceremony the bride and groom stood under an arch of white tulle and smilax from the center of which hung a yoke made of white violets and roses.

"In the center of the dining room where a pink and white color scheme, was carried out, stood a heart-shaped table made beautiful by bunches of pink tulle and ribbon and lighted candles with pink shades.

"Promptly at 2:30 o'clock, to the strains of the wedding march, the bridal party came down the broad stairway. First came Miss Agnes Godfrey, sister of the groom, and Miss Elizabeth Walton; then Miss Lula Walker and Miss Lucia Goddard of Griffin; Miss Mamie Cooper of Atlanta, and Miss Caroline Callaway; Miss Sims of Newnan, and Miss Sue Reid Walton; Miss Mary Walton Trammell and Miss Kitty Newton. These young ladies carried ropes of white tulle with which they formed an aisle from the foot of the steps to the altar. Next came the groom with his brother, Captain Erwin Godfrey, and then the bride with her maid of honor, Miss Annie Lucy Newton.

"During the ceremony a selection from Nevin was played by Miss Williams.

"The bride wore a charming going-away gown of dark blue velvet, with hat to match, and carried a shower bouquet of bride's roses. Miss Annie Lucy Newton, sister of the bride, wore white crepe de chine and carried pink roses. The wedding gifts which were seen in the library were numerous and handsome.

"The bride is the eldest daughter of Hon. John T. Newton of Morgan county, and is very popular in Madison and throughout the State. The groom is the youngest son of Mrs. Molly Walton Godfrey, and is a young man of prominence in social and business circles. For some time he has been connected with a bank in Alachua, Fla., where the young people will make their home.

"Assisting Mrs. Newton in receiving and entertaining her guests were Mrs. Elisha Gushman, Mrs. W. P. Walker, Mrs. W. H. Burnett, Mrs. Porter Rogers, Miss Lucie Newton."

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

Improvements at the Huffman House People Returning.

Melrose, October 16.—Mrs. M. S. M. Caldwell and C. P. Huffman have returned from their visits North; other new arrivals are Chas. Labor and wife and Miss J. Labor of Rhine, Kas.

W. S. Yearwood and family have moved into the cottage formerly occupied by Mrs. Corpew.

The cemetery working last Monday was attended by a large crowd, who did their work in a first-class manner.

H. Jackson is changing his pumping engine from two-inch to six-inch cylinder, also putting in a three inch supply pipe, these changes being necessary owing to the demand for water, which is very fine and clear.

O. C. Husband has returned from Palatka, having been on the jury during the past week.

The Huffman House is being put in first-class order for the coming season, the first guests being due November 1st. Quite a number of rooms are already engaged by their regular winter visitors.

Don't be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Quiet Wedding.

Monday afternoon, October 16th, at half-past four o'clock, Dr. William Herbert Powers and Miss Violet Harris were quietly married in this city, Rev. L. W. Moore officiating.

The groom is a prominent and popular young physician and the bride the beautiful daughter of Mr. and Mrs. Frank Harris.—Ocala Banner.

Dr. Powers is known to many people in Gainesville as one of Ocala's popular physicians, while his charming bride has a host of young friends in this city who join The Sun in wishing them a happy married life.

Gainesville Girls.

Misses Pearl Whetstone, Gertrude Westgaard, Leona Baird, Carrie Dean and Eva Dean, a body of pretty Gainesville girls attending the Female College in this city, took in the State House yesterday, and the way the young bachelor clerks danced around explaining to them how the State government was run, proved quite conclusively that their visit was appreciated.—Tallahassee Daily Capital.

OWN YOUR HOME.

It is surprising the amount of rent a man will pay, if he stops long enough to figure it out. Many young men who marry and "settle down" and begin to pay rent, will be far better off in ten years if they begin purchasing property that year than if they continue to pay rent. Many of them do not stop long enough in their daily work to think of a possible rainy day and years of old age, but go on spending the fruit of their toil until the time comes when they have to step down and out to make room for the young men of the future. Then comes the old, old question, they are not prepared for an emergency of this kind, and they wish that they had bought when they were young and have a home of their own when the time of acquiring it is passed.

Ninety-nine times out of a hundred the property purchased increases in value. Why not figure this out to your own satisfaction, make up your mind and start at once to prepare a home? Where were you six, eight, ten, or fifteen years ago and what did you have? If you have paid rent all these years you have your rent receipts to show where your money has gone, but where is the home you might have owned if you had been paying your money towards a home of your own? What will you have then? Will it be a home of your own or a bundle of rent receipts? All real estate has a value, and if purchased at this value the buyer cannot possibly lose. Look around you, if you are an old resident of this city. You know about what certain pieces of property sold for ten or fifteen years ago. What are they worth today? We do not need to answer. In the history of the past you have many models, and all before you is an almost absolute certainty that real estate values will continue to rise, with the increase of population and the natural demands for residential and business locations. Which do you prefer, the comforts of your own home or a package of rent receipts, and live in the other fellow's house? Why longer pay tribute to Caesar? Why not be independent?

STATE MILITIA.

The State encampment of the Second Regiment of Florida troops, which was held at Orlando last week, has been the occasion of much favorable comment regarding the excellent conduct of our soldier boys. Governor Broward was detained from visiting the camp on account of pressing engagements, but the following extract from his letter to the men in camp is very complimentary:

"As the time for the close of the encampment of the Second Regiment of Infantry, F. S. T., draws near, the commander-in-chief feels that it is but proper to express his appreciation of the reports he has received of the steady and marked improvement made by the regiment in the duties prescribed, and further to announce that the conduct of the enlisted men of the command, as reported to him, has been such as to merit the commendation not only of the adjutant-general of the State, but officers of the United States Army on duty at the encampment, as well as of the representative citizens of the community in which the encampment has been held. In this respect the Second Regiment has set an example which may well be followed at other encampments of the State troops, and it is especially gratifying that within the short space of time allowed for the annual exercises and practices of the troops in their military duties, the Second Regiment has achieved a success which only zealous and conscientious regard for the obligations imposed could secure."

CITY IMPROVEMENTS.

The city of Gainesville is fast becoming one of the leading interior cities of the State, and backed as it is by a farming community that is able to support it, there is no doubting the assertion that in a few years we will be nearly doubled in population to that of the present time. With our sewerage system in complete working order we can then complete the improvement on the streets, and with our streets once well paved, the highway fund will not be such an item for many years to come.

The new charter has some changes in regard to building sidewalks, and owners of property in front of which they are constructed will have to do the work at their own expense, under the supervision of the street commissioner, and they should be well made. Well constructed cement sidewalks should last a lifetime.

A SAVINGS BANK.

The stocking has done duty as a savings bank probably ever since women began to wear hosiery, says The Savannah News, but it is doubtful if the cash-carrying capacity of a stocking was ever one of the main points in a lawsuit until that very point was made in a Pittsburg, Pa., court a day or two ago. The controversy was over a piece of property, for which one of the parties, a woman, said she paid in cash, $1,747. "In what form was that money?" she was asked. "One thousand of it was in bills, and $747 was in gold and silver coins." "From what place did you take the money?" "Out of my stocking, where I kept it." "Do you mean to tell this court that you carried $1,747 in bills and metal money in your stocking?" "Yes, sir." The lawyer submitted to the court that he was not qualified as an expert on the point of the capacity of stockings, but that he might later request that a few experts be called upon to say what they knew of such things.

HOW BOYS SUCCEED.

If a boy is to succeed in life's battle for bread and position among those at the top he must be alive, says an exchange. If he is a cigarette fiend he will never be anything or anybody but a common drudge. Success tells what a young man must do to win: "No young man can hope to advance rapidly who lacks an enterprising progressive spirit. Indeed, enterprise is a requisite to employment. No one wants to employ a youth who lacks push. He must be alive to and in touch with the spirit of the hour, or he is not wanted anywhere. The enterprising employer wants every employe to share his spirit. The enterprising man feels all the more keenly the need of assistance from those who can make up for his failing. Force, push, dynamic qualities are everywhere in eager demand, while the dawdling, incompetent, unprogressive wait in vain for a start or for promotion."

It is reported that the delay in installing the meter system of charges for water is occasioned by a difference among members of the council as to the minimum rate, one side standing firm for a rate of $8, while the other contends for $12. The latter rate would be unjust to the small consumer, for he would be compelled to to pay much more for the water consumed than would his neighbor who consumed three times as much but did not exceed the minimum rate. The small property owners are the ones who really pay the taxes of a community, and they should not be compelled to pay more than their proportion for water. Furthermore, the principle of municipal ownership of public utilities is to furnish such necessities to the public at the lowest possible rate, and not, as some seem to advocate, a source of immense profit to the municipality. Give the poor man a chance.

Rev. Sam P. Jones may be a trifle plain in his remarks, yet he is doing some good work in a number of Georgia towns in fighting the "blind tigers." He does not hesitate to denounce them in the plainest of English, and his work for the temperance cause is accomplishing a great deal for the people. In Cartersville, Marietta and Dalton he has organized clubs to fight the tigers, and they are becoming very docile. With half a dozen men like Sam Jones in the South, the tigers would have to leave.

Prices on naval stores seem to be going higher and higher, and resin that has been sold at a moderate price, now leaps to the handsome price of $4.10 per barrel. If it keeps on soaring upward it will soon be as valuable as chunks of gold. The business is booming in this section and the men who are engaged in this industry will soon be along with the fellows who are obliged to use six figures to quote their rating.

Governor Broward has appointed J. Emmet Wolfe of Pensacola to be his private secretary, to take the place of M. A. Brown, recently appointed sheriff of Duval county. Mr. Wolfe is the gentleman who the State Executive Committee ran against Holloway last year. As a result of the race, he went so far up Salt River that he has just got back.—Ocala Star.

The coal barons are now beginning to talk about people getting their coal too cheap. The next thing will be that they will want to know how they are going to get coal at any price.

OUR WEEKLY NEW YORK LETTER

A Passing Glimpse of the Duchess of Marlborough — Smart Pelerines the Vogue In Wraps—Evening Coats In Pastel Shades—New Fall Shapes In Masculine Headwear.

By RENE DEVERAUX.

Not for some months have the streets of New York been so crowded as during the last few fine days of September, the glorious autumn weather inviting all to get in shipshape for the coming season. The summer stay-at-homes are again welcoming on the avenue an occasional glimpse of the really smart set returning to town by train and steamer, and the suburbanites are enjoying the first-night theater attractions in the evenings and crowding the private fitting rooms of the shops during the forenoon hours. Here my lady may be seen in gowns Parisian and otherwise, which are to be purchased, copied or altered to suit her individual taste. With hat, gown and accessories ordered at once, she tries them on behind closed doors, obtaining a satisfactory ensemble before leaving.

During the week the Duchess of Marlborough, Consuelo Vanderbilt, who is making a short stay in America, was seen several times in town with her handsome mother, Mrs. O. H. P. Belmont. Her grace is an intimate friend of Mrs. Clarence Mackay, wife of the multimillionaire, and together they make a striking picture. Both svelte and girlish looking, they may well afford to affect the fluffy, feminine style.

At Sherry's a few evenings ago the duchess was gowned in a soft chiffon cloth frock, the skirt of which was bedecked with billowy ruffles galore. These tiny ruffles trimmed the bodice in a fichu effect and also finished the sleeves above the elbow.

Mrs. Mackay is most partial to that hazy shade of lavender called mauve,

THE NEW EMPIRE MODEL COAT.

and it goes without saying that she will combine this soft tint with the purple pansy shades so much in vogue this season.

So far but few coats have been seen, but one never knows what pranks American weather may play, and the shop windows are hung with excellent examples of both artistic and severely plain garments. There are the usual number of devotees of the chic short effects; but, generally speaking, in three-quarter length and a trifle longer the handsomest coats are brought out.

For a practical coat semifitting models are desirable. The smartest of these are made collarless, with silk braid, velvet or embroidered bands applied in empire style.

In one scene of her new play, "Miss Dolly Dollars," now running at the Knickerbocker, the popular Lulu Glaser appears in a particularly stunning rain coat, the admiration of every woman in the audience. It is a severely tailored cravenette coat, semifitting and plaited back and front. Across the back is a buttoned strap, and about the collar and cuffs there is a becoming touch of green velvet. There is nothing strikingly unusual about its makeup, but the perfect cut and fit and the absolute style it carries with it make every woman who sees it pine and sigh for a rain coat.

For street wear one of the very newest things is the Inverness pelerine. This wrap is essentially graceful and attractive in appearance and so easily slipped on and off that its popularity is assured. The under portion of this cape is fashioned sleeveless, with openings through which the arms slip, over which the long outer cape falls in unbroken lines. In blues these wraps have a smart military effect, and in small checks with turnover collar of velvet they are extremely becoming.

A Paris fashion authority says, "If you'd be chic and Parisian, wear blue," and certainly this color in dark, pastel and all the rich, odd tints seen in sky and water is the rage in Paris this winter.

In evening coats light blue broadcloth is a close rival of the always elegant white, and very light champagne tints are again exceedingly fashionable. In this latter shade a very beautiful coat in seven-eighths length was recently seen, the skirts of which rounded in front in an unusual design. The upper portion of this coat was a fascinating combination of the cloth, with a touch of black velvet and cloth of gold about the collar and cuffs. From the throat on either side was a soft cream crape scarf exquisitely embroidered in a Persian design, through which gold threads were scattered. This was worn loosely tied. The embroidered crape was also puffed into the bottom of the sleeve.

Swagger clubmen and other well dressed New Yorkers are gradually laying aside the old fashioned opera hat for a soft felt hat lined with softest silk, which can be folded into a surprisingly small roll and put into the pocket. A low crowned soft hat, around which is an inch and a half wide band, is the fashionable business hat. The brims of this season's stiff derbies curl rather more flatly than those of last season, the crowns being very much the same block.

[Our readers may have any question concerning fashions or fabrics answered by Rene Deveraux, the fashion expert, by addressing Rene Deveraux, P. O. Box 269, Madison Square, New York, inclosing stamp for reply.]

After working many years attired in men's clothes to locate and develop mining claims, Mrs. Fermina Sarras has sold her property at Reno, Neb., to a syndicate of Boston men for $90,000. She had forty claims. This lady took in washing for years to get enough to begin operations.

The fellows who want football toned down to a pleasant and easy game want to take all of the sport out of it. They are afraid some one will get hurt, yet it is a fact that the men who play football, and who refrain from cigarettes, beer, whiskey, etc., while in the game, seldom get hurt

As a matter of fact a "cold" is not a cold, nor is it caused by cold. When the so-called cold begins to develop it is a fever in its incipient stage. Like consumption, it is a house disease. It can neither attack or exist unless there is a lack of fresh air in the lungs, and the skin is abnormal.

The only terrors a peacemaker has to endure are the poems that are sure to dog his steps after such an event. No wonder President Roosevelt desired a trip South. Poet Laureate Wilson of England will probably have his effusion in Washington on the President's return.

The wonderful mansion built by Senator Clark of Montana in Fifth avenue, New York, is nearing completion. The total cost will be about $5,000,000. It is not so large as one or two others in that neighborhood, but it is by far the most costly of any of them.

A CAR BURNED AND ENGINE DAMAGED

On the Seaboard Air Line Railway at Cedar Key.

FIRE CAUSED BY A SPARK

Old Freight Car Had Taken Wood to the Key—Engine Had All Its Woodwork Destroyed—Another Engine Sent to Haul Passenger Train.

Quite a fire occurred on the Seaboard Air Line Railway at Cedar Key Tuesday night. A carload of wood had been sent to that station for the use of the agent, and switched on the siding by the engine that draws train No. 55, and after the wood had been unloaded the engine was run along side the car and left.

Later in the evening the old box car caught fire and was totally destroyed, and all the woodwork of the engine cab burned off.

As the old car was only used for hauling wood and such other work, it was not of much account. The news was reported to Waldo and another engine was sent to Cedar Key to haul the passenger train that passes through this city for Jacksonville at 7:45 in the morning.

The disabled engine passed through Gainesville to Waldo on her own steam yesterday afternoon, the engineer and fireman sitting up on the wreck enjoying the sun's rays.

THE YELLOW FEVER.

Desperate Effort at Pensacola—New Orleans is More Hopeful.

Pensacala, October 18.—Three new cases were reported to noon and two deaths. Yesterday there were 18 new cases reported and five deaths up to 6 p. m. There are 170 cases under treatment.

The two doctors who failed to report cases were fined $25 each and costs. An appeal was taken.

At New Orleans.

New Orleans, October, 18.—The record made here yesterday was remarkable. For the entire day only seven cases were reported, and all of those were before 2 o'clock. There was only one death for the twenty-four hours ending at 6 o'clock last night.

Today may also prove that the yellow fever is being rapidly stamped out, as four new cases and no deaths were reported up to noon. The total number of cases reach 3,339, and the total number of deaths 435. No new cases were reported from the country parishes today.

Important Meeting.

The ministers of the city are planning for a meeting of citizens at the court house next Tuesday evening to take some action in regard to people who come to the city and go from store to store and house to house, asking for assistance, claiming to be needy and telling other hard-luck stories.

The meeting will be called to perfect some sort of charity work, so that there will be someone in charge of the matter and our people will not be imposed on by those who are not deserving. Frequently there are cases that need investigation, as the parties who ask alms are abundantly able to work.

The circuit court for Sumter county convened at Sumterville last Monday, Judge W. S. Bullock presiding.

AUTUMN :-: STYLES FOR MEN,

As shown in our new Shoe stock, exhibit some very desirable shapes in Patent Leather, Calf and Kid. If your occupation keeps you out of doors all day we have a solid, sturdy, double-sole style that is neat, but very substantial. Something lighter for indoor wear—while our Dress Shoes are marvels of grace, beauty and comfort. We also have a large line of Men's Work Shoes, which assortment it will pay you to examine.

HON. JOHN TIGHE.

Assemblyman Tighe's letter should be read by every brain worker leading a strenuous life.

Hon. John Tighe, No. 98 Remsen St., Cohoes, N. Y., Member of Assembly from the Fourth district, Albany county, N. Y., writes as follows:

"Peruna has my hearty indorsement as a restorative tonic of superior merit. At times when I have been completely broken down from excess of work, so that my faculties seemed actually at a standstill, Peruna has acted as a healing restorer, starting the machinery of mind and body afresh with new life and energy.

"I recommend it to a man tired in mind and body as a tonic superior to anything I know of and well worthy serious consideration."—J. Tighe.

Excess of work so common in our country causes impaired nerves, leading to catarrh and catarrhal nervousness—a disease that is responsible for half of all nervous troubles.

Peruna cures this trouble because it cures catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

MILLINERY OPENING

At G. W. Hyde's Mammoth Establishment on Wednesday.

The ladies of the city and some from other cities were in attendance at the opening of fall millinery at Hyde's on Wednesday morning, and by 10 o'clock it sounded as though all were uttering exclaimations of admiration at once. Miss McClamroch and her assistants, Misses Wilcox and Neville, were busy waiting on customers and by noon upwards of 30 hats had been sold, so it is readily seen that the fine goods caught the popular fancy.

The new hats are very rich in colors, and present a piquanty that is most charming. The round hat in green, with shaded plume, is a popular favorite, while the Alice blue is still a leader in correctness of color, being the reigning shade in the ultra fashionable circles, with flowers and wings of birds for ornament. There were attractive hats made of crepe de chine, with chiffon and panne velvet, in plum color, with bird of Paradise aigrette, that were admired for their richness of color and modesty in trim. Dresden ribbons are much used, also the delicate tints of blue and green. Polo street hats and other patterns made up a display that was admired by the large crowd of visitors present during the day.

SUNSTROKES.

Some Georgia cities are quarantining against Florida oranges, but let the mullet go undisturbed.

The shade trees are looking better every day as the trimmers get through with them. Let the sidewalks come next.

The only trouble with Greene and Gaynor securing bail is that someone might kidnap them. It is best not to be caught napping.

The colored preacher who got into the wrong seat in the Pensacola street car, was prosecuted for violating the rules of the company, which did not interfere with the color line.

Before Hon. W. J. Bryan returns from his trip abroad he will make the Taft blow-out look like 30 cents. The Filipinos will give him a big send-off and Japan will do him great honor.

The editor of The Manatee Record and his force of employes have been laid up with dengue fever, and last week issued only a half-sheet. The Record is not in very good trim for "handling those fellows without gloves," as promised a week or so ago.

THE CHAUTAUQUA AT BOWLING GREEN

Closes in a Blaze of Glory in the Kentucky City.

LOVING CUP GIVEN DR. STROUSE

Pastors and Citizens Unite in Paying Him Tribute—A Word Spoken for Gainesville—Rev Dr. Strouse Promises a Fine Meeting.

The Chautauqua at Bowling Green, Ky., was closed on the evening of October 10th, in a blaze of glory, says The Daily News of that city. In speaking of the event that paper says:

"The surprise of the evening came just after Dr. Strouse arose to make the announcements. Before he had started Mr. Morgan Hughes stepped on the platform and asked to say a few words. He held a beautiful loving cup in his hand, which bore the following inscription: 'Presented to Dr. Clarence B. Strouse by the pastors and citizens of Bowling Green, Ky., as a token of their high esteem and appreciation, October, 1905.' Mr. Hughes in a few well-chosen words assured Dr. Strouse that the people of our city appreciated beyond expression the great blessings he had brought them—that his unselfish interest had touched their hearts, and the loving cup which he presented was only a token of their love. He congratulated him on the great success of the Chautauqua and Bible Conference and promised him unanimous support in the future.

"The great applause that followed was the most hearty ever heard under the tent and showed that he spoke the sentiments of all the people. Dr. Cabell arose and presented a beautiful boquet from the ladies of Potter College. Dr. Strouse's reply was most touching. He expressed his appreciation most beautifully and all could feel that it came from his heart. He announced amid applause that the Chautauqua came out $43 above expenses and that the management would donate that as a cornerstone for a beautiful chautauqua auditorium. He added that he wished to make the first subscription of $100 toward the building. He appointed Messrs Hughes, J. Whit, Potter, McCormack, McElroy, Nahm, Moss and Williamson as a committee to build it. Many subscriptions are already announced. Dr. Strouse can be of wonderful benefit to our city from without as well as within. The Bible Conference and Chautauqua which he established three years ago at Gainesville, Fla., has fairly boomed that city."

Dr. Strouse is also booming our city wherever he gets an opportunity, and we hope he will be able to boom the Chautauqua to be held here this winter.

Union Has Been Dissolved.

Stockholm, Sweden, Oct. 17.—The union between Norway and Sweden existing since 1814, has been dissolved, both houes of the riksdag having passed the government bill repealing the act of union and recognizing Norway as a state, "Separate from the union with Sweden." The lower house adopted the bill without debate, but two or three members of the senate expressed the opinion that the dissolution was an irreparable misfortune and that the time would come when Norway would perceive the benefits of the union. Both houses subsequently passed the new flag law.

Mrs. Parvenue—That picture in the corner is by an old master. Mrs. Swartleigh—Indeed! I would never have guessed it. Mrs. Parvenue—Yes. The man I bought it from gave me a written guarantee that the painter was past seventy-five before he did a stroke on it.

Neuralgia And Other Pain.

All pain in any disease is nerve pain, the result of a turbulent condition of the nerves.

The stabbing, lacerating, darting, burning, agonizing pain that comes from the prominent nerve branches, or sensory nerves, is neuralgia, and is the "big brother" of all the other pains.

Dr. Miles' Anti-Pain Pills rarely ever fail to relieve these pains by soothing these larger nerves, and restoring their tranquility.

Dr. Miles' Anti-Pain Pills leave no bad after-effects, and are a reliable remedy for every kind of pain, such as headache, backache, stomachache, sciatica, rheumatism and neuralgia.

They also relieve Dizziness, Sleeplessness, Nervousness, Car-Sickness, and Distress after eating.

"For many years I have been a constant sufferer from neuralgia and headache, and have never been able to obtain any relief from various headache powders and capsules, until I tried Dr. Miles' Anti-Pain Pills. They always cure my headache in five minutes time." FRED R. SWINGLEY, Cashier 1st Nat. Bank, Atkinson, Neb.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk.

A Greek claiming to hail from Philadelphia, but who failed to provide himself with a proper health certificate, was arrested by Sheriff Gibson upon complaint of State health officer, Dr. Porter. This same party was put off the train at McIntyre by Mr. Frank Burns, health officer, because he did not have a health certificate. Nothing daunted; the Greek walked to Carrabelle from McIntyre and from Carrabelle he got into Apalachicola, and finally into the county jail.—Apalachicola Times.

ANOTHER FOX HUNT.

A Fine Animal Captured After an Exciting Chase.

Those who enjoyed the merry chase of the fox hunt were up early yesterday morning before the peep of day away to the woods, where Sheriff Fennell and his seventeen fox-hounds furnished amusement for a hunting party consisting of the Misses Dempsey, Myrtle Fennell, Dr. Lassiter, Col. Thrasher, M. F. McCook, C. F. Goodman and Lee Colson.

They went to the old hunting grounds west of the city, and soon had the game up a tree. The fox was given a chance for his life, and when the hounds started in pursuit there was much excitement, until he was run into a gopher hole. On the second run he was chased to a tree and captured.

All were highly pleased with the sport and nothing happened to mar the event, the party returning at about 9 a. m.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

Another Automobile Victim.

Chicago, Oct. 17.—With her head resting on the bank of flowers intended for the funeral of another child, 10-year-old Isabella Walker was carried last night by the automobile which had struck and fatally injured her, to the office of a physician where she died on the pillow of white roses. The girl was fatally injured while crossing Ashland boulevard. L. F. Stevens, the driver of the machine, was arrested. Mr. Stevens, with his brother, Thomas B. Stevens, was hurrying to the home of a friend and his brother held in his arms a large floral pillow for the funeral of the friend's little daughter.

BAD ACCIDENT TO NOBLE STROBHAR

Right Foot Crushed by Cars Near High Springs.

WAS FLAGMAN ON THE TRAIN

Fell Under the Car When Train Was in Motion—Foot Was Amputated Above the Ankle Joint—Taken to Hospital at Waycross, Georgia.

One of those unfortunate accidents that are liable to occur any day on the railroad happened to Noble A. Strobhar of Gainesville, well known as "Nobie," and liked by all who know him.

He was flagman on the train from High Springs on the Atlantic Coast Line, and when two miles this side of that place at about 6 a. m. Tuesday morning an accident happened to the train, delaying it for a short time.

After everything had been adjusted the train started. When in motion young Strobhar attempted to get on board, and in some manner his foot slipped, throwing him down in such a manner as to catch his right foot under the wheels, and it was badly crushed.

He was attended by the physician as quickly as possible and his foot amputated at the ankle just above the joint and was sent to the hospital at Waycross, Ga.

The accident will be a severe one to the young man, and his many friends in this city express regrets at his sad misfortune. He is about 20 years of age.

Who would keep their children in good health should watch for the first symptoms of worms, and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. Sold by W. M. Johnson.

Death of Miss Wilcox.

From Wednesday's Daily Sun.

The death of Miss Frances V. Wilcox, a maiden lady, occurred at her boarding place, the Dormitory, at 2:30 a. m. Tuesday, after a long illness. Miss Wilcox came here from New York City in March last, being a sufferer from diabetes, which later developed into Bright's disease, resulting in her death.

During her residence in this city she has been confined to the house most of the time. She was a member of the Episcopal church, but has never been able to attend services. She has a sister residing in New York, Mrs. Dr. Stillwell, and a brother in California, who have been notified of her death.

The funeral will be conducted this afternoon at 3 o'clock from the Episcopal church, and the interment will be made at Evergreen cemetery.

Cures Chills and Fever.

G. W. Wirt, Nacogdoches, Texas, says his daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much for it. 50c. Sold by W. M. Johnson.

University street, last evening, Rev. H. M. Fleming, pastor of Mt. Moriah Church, officiating. There was a large number of the friends of the contracting parties present, and the occasion was one long to be remembered.

The funeral of Miss Francis V. Wilcox took place from Trinity Episcopal Church at 3 p. m. yesterday, Rev. F. H. Craighill officiating. The occasion was a sad one, the relatives being unable to attend. Kind friends did all they could to show their true Christian spirit, and the kind deeds and tokens of respect were very graceously bestowed. The interment took place in Evergreen cemetery.

At a special session of the county commissioners yesterday, called for that purpose, the books of County Tax Assessor Colson were examined and accepted by that august body. The books showed a very clever piece of work and a balance that was absolutely correct. The total valuation of property in the county is placed at $4,798,743. The State tax amounts to $28,792—county tax, $60,555, including poll tax.

W. D. Dickinson, county tax collector, has always something on hand in his office, and states that from February 1st to June 1st he averages about sixteen hours, making out his books for collecting the taxes of the county. He says it is surprising to see how many who live outside own a strip of mother earth in Alachua county. He says that two tax receipts are sent out by mail to one handed out. The largest amount paid by one property owner is $2,485, the receipt giving a discription of 56,000 acres.

CHILDREN'S HOME.

A Noble Work for the Little Ones That Need a Friend.

Mrs. Cora Hawley Seaton of Jacksonville, superintendent of the Children's Home Society of Florida with headquarters in Jacksonville, is in the city on a mission of mercy. She expects to return to Jacksonville today, and take with her two infants which will be under the tender care of this society until they can be placed with some responsible family.

This lady informs The Sun that she has already placed three children in homes from this city since August, and the two she takes to Jacksonville today will make five.

The work of this society is in charge of some of the best people of Jacksonville, and these little ones whose parents are not able to care for them are placed in good families.

The society is auxiliary to kindred organizations throughout the different States of this country, and although in its infancy in Florida, there will no doubt soon be a deeper interest taken in the work by the charitably inclined people of Florida, and a home established that will be a credit to the State.

On account of President Roosevelt's visit to Jacksonville, the Seaboard will sell tickets to Jacksonville and return at rate of one straight fare, plus 25 cents, such tickets to be sold October 20th and for trains scheduled to arrive at Jacksonville before noon, October 21st. Final limit of tickets October 23rd, 1905.
